There had been early attempts to make a break, with Ribeiro leading by 35 seconds at one point before being caught in the 11th kilometre. Dixon led at halfway in 74:20, and had 35 seconds on the field before being reeled in at 29km. As late as 35km, there was still an unusually large lead group of 14 runners, including four Ethiopians, three Kenyans, and two each from the USA and Bahrain. Cragg began to push the pace at 36km and the group was reduced to nine. Chelimo moved to the front, and went 15m clear after 38km, with 2011/2013 champion Kiplagat the closest chaser. The Kenyan was one second ahead of Chelimo at 40km (2:20:06), with Cragg and Cheyech 40m back. The Kenyan-Bahraini Chelimo then made her final effort and eventually won by seven seconds from Kiplagat. Cragg finished brilliantly, gaining more than 10 seconds on the exhausted Kiplagat in the last 600m.

"My life will change because I am a World Champion for my country now," said Chelimo, whose transfer from Kenya to Bahrain was approved in 2016.

The Qatari heat for 2019's track events was mitigated by the special air conditioning installed in the stadium, but there was no such relief for athletes contesting road events on Doha's floodlit Corniche, which was largely deserted at the time of the start at 23:59.

This was the first of the six road championships in Doha, and the conditions were challenging, with the temperature at 32°C and with 73% humidity. Despite suitably cautious 10km splits of 36:44 and 35:50, there were only five athletes in the leading group at halfway, and

18 runners had already dropped out. Chepngetich, Chelimo, Johannes and Kiplagat were by themselves at 25km. After a much quicker third 10km, they passed 30km in 1:45:33. Then after 36km, Chepngetich gained seven seconds on Chelimo and took 24 seconds out of Johannes and Kiplagat. By 40km the Kenyan led Chelimo by 23 seconds with Johannes another minute behind. Chepngetich won by more than a minute, while a further nine had withdrawn because of the heat and humidity.

While Inzikuru, a steeplechase specialist, had the fastest time before Helsinki, Janowska, and particularly Zadorozhnaya, were good flat runners thought to have a good chance of triumphing in the first ever

world women's steeplechase final. Inzikuru set a brave pace, and with a first kilometre of 2:57.98 only had her two principal rivals for company. Though the pace slowed to 6:05.20 at 2000m, Janowska was dropped, and shortly after Zadorozhnaya began to slip back, eventually fading to sixth. Inzikuru was never threatened, although Volkova closed to within 15m at the finish, and the Ugandan thus won her country's first-ever world gold.

Galkina, the world record holder, was the favourite, while Dorcus Inzikuru was unable to defend her title. Galkina led through the first kilometre (3:00.35) in the final, but then inexplicably began to slip back. Volkova took over the lead, and by 2000m (6:05.46) was almost 10m clear of Petrova and Jepkorir. She increased her lead by a couple of metres before the bell, and went away to win by nearly 20m from Petrova in the second fastest time ever. Jepkorir slipped back in the last lap, but easily held off Bisibori for the bronze. Volkova noted afterwards "Galkina is the best, there was something wrong with her today", and then correctly predicted "she [Samitova] will be the first one under nine minutes."

Rightful finalist: Oxana Juravel MDA

The favourite Galkina, troubled by a knee injury, led from the gun and passed 1000m in 3:01.26. She continued in front but not at the searing pace she'd set at the Beijing Olympics when she broke the world record. The second kilometre was covered in 3:05.19. It was Zarudneva, not Galkina who proved to be the strongest Russian challenger. She led a group of seven at the bell and repelled a challenge from Ghribi to drop all but Domínguez until just before the final hurdle, when the Spaniard zipped by to win by 8m. It was "the most important victory of my life," according to the winner, who had fallen while in medal contention at the 2008 Olympics.

Chemos – fifth at the final water-jump – closed drastically thereafter to almost deprive Zarudneva for the silver. She had ran her first steeplechase only four months earlier. Defending champion Volkova went out in the heats.

In November 2015 and after years of legal procedures, Domínguez was found guilty of a doping violation. The Spanish Athletic Federation had earlier cleared the Spaniard of irregularities in her biological passport, but that decision was contested by both World Athletics and WADA. The Court of Arbitration for Sport ultimately ruled that Domínguez be banned for three years to October 2017, with a result disqualification backdated to August 5, 2009. Her Berlin title went to Zarudneva – who as Zaripova would be stripped of the next world title.

Zaripova, as Zarudneva, originally won silver behind Marta Domínguez in 2009 and then front-ran to the European title ahead of

the Spaniard in 2010. The Russian repeated her 2010 tactic in Daegu. The Kenyans stayed with her through kilometre splits of 3:00.70 and 3:03.66 before the Russian began to move away in the penultimate lap. Ghribi passed the Kenyans with 650m to go and looked like a threat to Zaripova, but instead the Russian's superior barrier technique and strength enabled her to draw away over the last 200m. Her time of 9:07.03 moved her into third on the all-time list.

Sadly this proved to be the second successive World Championship where the women's steeplechase champion was disqualified for a doping offence. In 2009, Zarudneva/Zaripova had been promoted to gold after Dominguez was charged. That was in November 2015, but already in January of that year, Zaripova was one of six Russians sanctioned by the Russian Anti-Doping Agency for an offence based on anomalies in her Athlete Biological Passport. Once the details of their sanctions had been confirmed by the Court of Arbitration for Sport (in March 2016), World Athletics set out her punishment. This included the annulment of all of Zaripova's results since and including that of July 20, 2011. A record five women were disqualified for doping infractions from the final alone, plus one more from the heats.

Ghribi therefore became her country's first World Champion in athletics and was handed her gold at the 2019 World Championships in Doha. The Tunisian also claimed Zaripova's 2012 Olympic title, receiving that medal in June 2016.

After one lap of the final, all Kenyans and Ethiopians were clear of the field. Ayalew led through 1000m in 3:01.72, and then Chemos took the lead. The shortest of the contenders, and with a rudimentary hurdle technique, she covered the second kilometre in 3:09.64. With just under two laps to go, Assefa hit a hurdle and fell, losing 20m. Chemos lifted the pace approaching the bell, and though training partner Chepkurui got near during the last lap, she could never pass her diminutive teammate. Chemos became Kenya's first female world steeplechase champion. Behind her Chepkurui only just held off Asefa for silver. Without the fall, the Ethiopian would surely have been battling for gold. The transponder time for her final lap was 73.27, quicker than the 73.68 of the winner.

The two biggest threats to East Africa never made it to Moscow. Olympic silver medalist Habiba Ghribi withdrew with an injury. So did defending champion Yulia Zaripova, who was reported as having hurt her knee hurdling, but was later declared guilty by the Russian Anti-Doping Agency of having committed a doping offence from July 25, 2013.

After a slow start, Babar of India broke away, passing 1000m in 3:09.96, and still led at 2000m in 6:22.27. Coburn took the lead with two laps to go, and at the bell (8:12.85) there were still seven in the leading group. Olympic Champion Ghribi went to the front just after the bell, but could not break away. As the leaders came out of the final water jump, the Tunisian led by inches from Jepkemoi, with Krause, Coburn and Assefa just behind. Approaching the final barrier Krause sidestepped inside and came off the final hurdle just ahead of Ghribi, with Jepkemoi third. In an exciting finish, those positions were reversed with the Kenyan emerging as the victor. Barely a metre covered the top three.

For Morocco, Ouhaddou was disqualified for a third successive World Championships. Her results in 2011 and 2013 were annulled because of doping violation revealed by her biological passport. In Beijing she was sanctioned for stepping inside the inner lane line.

One of the viral moments of the London World Championships came 90 seconds into the steeplechase final. Chepkoech, one of the favourites, had been leading at a gentle pace when she simply forgot to cut inside and take the first water jump. She realised her mistake and did the right thing, doubling back and followed the path she should have taken in the first instance, but lost 50m in the process. She then fell on the following lap, hampering the European Champion Krause among others.

As Chepkoech miraculously made her way back into contention, world record holder Jebet led a pack of six at 1000m (3:02.74 by photocell): herself, Yavi, Chespol, Jepakemai and the Americans Coburn and Frerichs. Jebet's pace first dropped her Kenyan-Bahraini compatriot Yavi, and it looked as if she would run from the front for gold as she had at the Rio Olympics. Yet with three laps left, the gap behind her did not grow and six women were still in contention at 2000m (6:03.60).

Surprisingly it was world leader Chespol who cracked first, then Jebet unexpectedly succumbed to Chepkoech at the bell and folded completely in the backstraight. Still running strongly were the American pair and they hit the front coming off the last water jump. Against expectation, Coburn drew clear and her compatriot held off Jepakemai for the silver.

The efficiency of the water-jumping by the top two was praised by the London biomechanics, who concluded that "developing effective water jump clearance technique is key to making sure that medals are not 'lost in the water'."

Chepkoech had put her travails of 2017 well and truly behind her. In 2018 she broke the world record by more than eight seconds, and in Doha she set off seemingly intent on breaking that record (of 8:44.32).

Her first kilometre took 2:52.95 (8:38 pace!), giving her a lead of 50m. Despite slowing in the middle kilometre (3:02.33) the Kenyan's lead was increased by a further 15m. The pack started making inroads when Coburn pushed the pursuers' pace with 700m to go. At the bell Chepkoech led by seven seconds, with Coburn having gained three seconds in the penultimate lap. The American gained a further 2½ seconds

in the last lap, but Chepkoech, despite a moderate last lap of 70.63, still had a margin of 30m at the finish. Fastest finisher was Krause, who moved up from fifth in the last lap to repeat her 2015 bronze.

Windy conditions on the last days of the championships blew Bettine Jahn to history's fastest time but prevented the mark from being accepted as a record.

The 25 year-old GDR hurdler, only third in the previous year's European Championships, ran a perfect race from lane 1 to clock 12.35, 0.01 quicker than the 1980 world record of Grażyna Rabsztyń. For a moment the stadium was celebrating the third world record of the championships. Then the following wind was confirmed as 2.4 metres per second. A strong second was Jahn's taller compatriot Knabe, who closed down on the leader over the last two hurdles.

Yordanka Donkova, who set three world records in 1986, was left without a medal in a final which resembled a Bulgaria versus GDR international.

Donkova had been supplanted as world record holder by her teammate Zagorcheva, and it was she who dominated in the final. Donkova held second place briefly but was overtaken by the GDR pair of Uibel and Oschkenat.

The event went to form when Lyudmila Narozhilenko added the world outdoor title to the one she had won indoors in March. The Soviet record holder (12.28) ran the fastest times in each of the rounds and took control of the final from the third hurdle.

It looked as if the USSR would also claim the silver, before Devers-Roberts surged at the end of the race. Her run represented a remarkable comeback. She had suffered from Graves' disease – a thyroid condition – which prevented her from competing in 1989 and 1990. Six months before the championships she was confined to her bed and almost had to have her feet amputated. She miraculously recovered and started training seriously in May.

The silver and bronze medallists of 1987, Siebert (née Uibel) and Oschkenat – were both eliminated in the first round.

Devers made amends for falling in the Olympic final by taking her second world gold in five days. The American was helped by the fact that her main rival, Azyabina, false-started in the final.

It was Tolbert who showed the best reactions when the race started for real. She was caught by Devers before halfway. The 100m champion easily held off the closing charge of Azyabina to break her own American record. Tolbert held on for the bronze.

The form book indicated that Devers would face a strong challenge from Shishigina, who was unbeaten in 10 hurdles races in 1995 and had a best of 12.44. Devers, meanwhile, was having a low-key season in which she avoided sprinting due to a tender hamstring.

In the final, the American got a poor start but her speed between the hurdles showed. Shishigina was the better hurdler but was no match for the American. "In the race I just focussed on my lane," said Devers. "I didn't know of the others."

After setting Commonwealth records of 12.53 and 12.52 in the preliminaries, and with a clear lead in the early stages of the final, Freeman must have believed everything was going her way. But her fate was to finish third. Sweden's Olympic Champion Engquist (who won this title in 1991 as Lyudmila Narozhilenko of the USSR) kept her head and, despite being as much as 6/100ths behind Freeman after 40m she was

ahead at the seventh hurdle and went on to finish a metre clear. The Jamaican was passed on the run-in by Dimitrova. Girard was disqualified for two false starts.

It was one of the great human interest stories in athletics history, two of the medals in this event falling to women who had faced potentially fatal health problems and yet returned to competition at the highest level. For them to win or lose a race remained a challenge but was hardly a life and death issue compared to what they had overcome. Both came away delighted and their post-race embrace was moving indeed. Devers, once stricken with the life threatening Graves' Disease, not only won her third world hurdles title but smashed her American record of 12.46 by 9/100ths for the world's quickest time for seven years. She also moved ahead of Jackie Joyner-Kersey with a women's record five World golds. But it was by no means a perfect run as she struck the final hurdle and nearly fell headlong. She managed to recover although the stumble must have added several hundredths to her time.

Alozie set an African record of 12.44 for second while breast cancer sufferer Engquist, who faced a further course of chemotherapy just a few days later, couldn't believe how fast she had run – a Swedish record of 12.47 for the bronze medal. Believing 12.60 to be her limit at that time the 1991 and 1997 champion had burst into tears after clocking 12.50 in her semi and this was a further bonus. The standard was so high that Shishigina, the pre-Seville favourite, ran 12.51 but came away empty-handed.

All eyes were looking to see if Devers could win a fourth title, but there was an upset in the final when another American, Kirkland, won the gold from lane 1. Devers had impressed most in the qualifying round, clocking a world-leading 12.56 in her semi. Kirkland had finished only third in the other semi in 12.80, hence the unfavoured draw in the following day's final.

In the first half of the final a third American, Adams, had the best start and she, Devers and Kirkland were placed first, second and third. Adams faded, Devers hit the eighth barrier and Shishigina came up with Dimitrova to contest the bronze. Meanwhile Kirkland ran a perfect race to complete a great double. In March she had won the world indoor title from lane 8.

The big shock was that Gail Devers did not qualify for the final. She had impressed most on the Grand Prix circuit in 2003, but hit a hurdle badly in her semi-final. Despite a quick recovery, her time of 12.87 did not hold up for advancement.

Foster was a clear world number two to Devers so she was expected to win gold. It was silver thanks to the surprising Felicien, who had a good start and took control by the fourth hurdle, then withstood Foster's closing lunge on the run-in. Hers was the first medal won by a Canadian woman at a World Championships. The 2001 champion Kirkland had given birth in May and only made a token appearance in the heats.

In a closely-matched field Perry, who had switched from the Heptathlon in 2005 to focus on the hurdles, was regarded as the one to beat. She and 2003 runner-up Foster-Hylton were fastest in the heats which were interrupted after the first race by a two-hour delay because of the torrential rain in Helsinki on the night of Tuesday, August 9. There was a total of 103mm of rain in Helsinki in World Championship week, five times the average amount for that time of the year!

The two principals were semi-finals winners, Foster-Hylton running 12.65 to beat Olympic Champion Hayes and Shevchenko (12.76 for both), while Perry won her race into a 3.3 wind in 12.86. The 1999 finalist Delloreen Ennis-London had won the first of the three semis, enabling Jamaica to maintain its record of being the only country to supply a finalist in every year from 1993 onwards. The Jamaicans held the United States athletes in the final until halfway, when Perry went clear. Hayes began to attack with three hurdles to go and was in second place when she hit the ninth, and then ran into the 10th hurdle, carrying it towards the finish line, where she fell to the track, distraught and doomed to be disqualified. Perry won by a metre, with Ennis-London just edging Foster-Hylton for silver.

7,	Dawn Harper	USA	12.81	0.164
8,	Perdita Felicien	CAN	15.53	0.151

McLellan was off best in the final, and led until for four hurdles, then the Jamaicans edged ahead. First Ennis-London (6.50 at hurdle five), then Foster-Hylton (7.46 at the sixth). Foster-Hylton continued to lead for the rest of the race, though Lopes-Schliep and Ennis-London ate into her advantage on the run-in. She later revealed that she had her eyes closed after the last hurdle to help focus her effort. The favourite Harper – who ran 12.48 in the semi-finals – was out of the reckoning after losing her balance when clipping the second hurdle. In contrast, O'Rourke had the race of her life, setting a national record in placing fourth.

Foster-Hylton did not believe she had won until the result flashed up on the scoreboard a minute or so after the finish. Then came hysterical celebrations with her compatriot when Ennis-London was confirmed in third place.

7,	Vonette Dixon	JAM	12.64	0.161
8,	Angela Whyte	CAN	12.66	0.138

Fastest in the heats was Susanna Kallur with 12.66, while four women found sub-13 clockings insufficient for advancement. The first semi saw defending champion Perry run 12.55 ahead of 2003 winner Felicien. A feature of Perry's running in Osaka was her reactions at the start, and in the final she excelled herself with a time of 0.105 seconds. Nevertheless it was Kallur who was the early leader. The Swede led until the eighth hurdle when Perry inadvertently impeded Kallur at the last by drifting into Kallur's lane. The Swedish management did not protest as there was no photographic evidence available within the allowable protest period. While Kallur had been slightly ahead at the ninth hurdle, Perry was leading as they crossed the final barrier, and Felicien and Ennis-London edged past Kallur on the run-in, with just 0.02 covering this trio. The times for fifth to eighth were the best ever in any race, and both Kallur and Dixon ran lifetime bests.

Pearson entered the championships as favourite, with the fastest time of the season and an unbeaten record. In 2011 She was 0.20 faster than anyone else in the heats, running 12.53, then in the semi-finals, clocked 12.36, a full 0.38 ahead of Olympic Champion Dawn Harper. Porter, transplanted from the USA to Britain, set a national record of 12.56 as the second fastest semi-finalist.

A Mexican wave flowed around the stadium as the finalists were introduced, but it thankfully stopped as the women were called to their marks. Showing remarkable consistency, Pearson was already a tenth up on the field by hurdle five, drawing gasps of admiration from the crowd with her superb style. She won clearly in 12.28, the world's fastest time since 1992. The battle for silver was between the three Americans and Porter. At the sixth hurdle Wells was unstick, and the Briton clipped the ninth, leaving Carruthers edging Harper by three thousandths. Semi-final winner George cramped up in the final.

Rightful finalist: Alina Talay BLR

This promised to be a fascinating duel between Pearson, the Olympic Champion recovering from a hamstring problem, and Rollins, who had won the US title in 12.26, the fastest time for 21 years. After reaction times of 0.177 in both preliminary races, Rollins got a shocker of a start in the final, reacting in only 0.263. She was only seventh over the first hurdle, as Pearson and Porter led. Rollins had moved past Harper Nelson into third by the fourth hurdle while Pearson held a slim lead. The American Champion caught Pearson at the eighth, and finished half a metre clear. Porter was an equal distance further back in third place. Rollins was able to celebrate her 22nd birthday a day early with a memorable win.

In February 2019, eighth-placed Kondakova was one of 12 Russian athletes sanctioned by the Court of Arbitration for Sport. She was banned for four years and had four more years of results annulled including from Moscow 2013. The sanction was confirmed by the AIU in May 2021.

This event was disastrous for the world's strongest nation at the discipline, the United States. Two of their potential World Champions went out in the semi-finals. First Harper Nelson fell, then Harrison false-started. In the final, defending champion Rollins led at the first hurdle, but she hit that barrier and lost crucial momentum.

The USA's loss was Jamaica's gain. The lead passed to Danielle Williams, whose elder sister Shermaine was also in the race. D Williams and Porter led until the eighth hurdle, where the Briton faltered and the Jamaican moved clear. Roleder and Talay closed, with the German swooping in from lane 8 to snatch the silver.

Experience counted in the cool conditions with the gold and silver medals going to the same women as in the London Olympics five years earlier. Pearson's victory was especially sweet as she'd broken her wrist in 2015 and missed the Rio Olympics with a hamstring injury.

The favourite had been world record holder Harrison, but she hit a hurdle in her semi-final and only made the final as the slowest time qualifier. The American had a good start in the final, but then completely knocked over hurdles 2-3-4. Meanwhile Pearson had no hurdle contact for the entire race. Dutkiewicz was a surprise bronze medallist as Harrison recovered well to salvage fourth place.

At the first hurdle the three principals – Williams, Harrison and Ali – were level. Harrison led momentarily, then Williams, but by the fifth Ali was ahead. The American surged clear to win by over a metre as Harrison edged Williams for the silver. Amusan had been left at the start, but almost caught Williams at the finish. Fifth-placer Vargas became the first Costa Rican to reach a World Championship final, having broken her national record in all three rounds. The beaming Ali celebrated her victory in the Doha's final individual event by conducting a 'straight' of honour with her son Titus and daughter Yuri.

It was quite a turnaround from Ali's previous World Championships. In 2013 she missed the final by two places, then in 2017 she was eighth and last. Conversely, Ali's close friend and 2013 champion McNeal (Née Rollins) was disqualified for false-starting in her heat.

In the absence of the USSR, the GDR took all three medals. The title went to 1979 World Cup winner Broschat (née Klepp), who prevailed by 0.01. Her time of 54.55 was quicker than the official world record of 54.78, but at the time an even quicker mark by another East German (54.28 Karin Rossley) was awaiting ratification.

The 'B' final was won by Spain's Colorado, but she was later disqualified for failing a drugs test. This was the first such violation at the World Championships.

For the second successive World Championships, the winning margin was just one hundredth. Ellen Fiedler (née Neumann), started very quickly in lane 1. She was three metres up at halfway and pulling away. The other two GDR finalists were well placed, but in the finishing straight the Soviet pair of Ambrazienė and Fesenko took control. Ambrazienė, the world record holder, took the lead at the 10th hurdle – only to be passed herself on the run-in by Fesenko.

After the finish, the winner – who celebrated her 25th birthday on the day of the race – predicted a time of 53 seconds for herself in the future.

Boosted by the 400m flat win of Thomas Schönlebe from the same lane (3) 20 minutes earlier, Sabine Busch overcame her raw hurdling style to win another gold for the GDR.

It was the other GDR runner, Ulrich, who led for the first half of the race. Busch moved in front on the second bend. She made no mistakes and drew away comfortably to win with the eighth-fastest time ever. From the outside lane, Flintoff finished strongly to take the silver medal on the run-in.

Final (Aug 29)

1,	¹⁶¹ Tatyana Ledovskaya	URS	53.11
2,	¹⁵¹ Sally Gunnell	GBR	53.16
3,	¹⁷¹ Janeene Vickers	USA	53.47

At the 1988 Olympic Games, Ledovskaya lost the gold medal after she eased up prematurely at the finish. In Tokyo, the Soviet hurdler won as her rivals made mistakes in the closing stages. Like several of her teammates, Ledovskaya had raced sparingly in 1991. Instead, the favourites for Tokyo were Gunnell and Farmer-Patrick. The Briton won her semi-final from Ledovskaya, who laboured at the finish and looked unfit.

This proved an illusion, for in the final Ledovskaya (lane 6) sprinted away from Gunnell and Farmer-Patrick (lanes 5 and 4). At the fifth touchdown she had a lead of three metres, and she added to this with a dazzling turn of speed between hurdles six and eight.

The Briton made her move in the homestraight, overtaking Farmer-Patrick and gaining ominously on Ledovskaya between the last two hurdles. But Gunnell stuttered slightly and lost some momentum on clearing the final barrier. Farmer-Patrick also took the last hurdle badly and clashed arms with Gunnell when she landed awkwardly. Meanwhile, Ledovskaya had a smooth clearance and held Gunnell at bay to win with the second quickest time in history.

"It was my hardest win as an athlete," said Ledovskaya, who revealed that she had only competed in Tokyo on the insistence of her coach.

Some viewed the clash between Gunnell and Farmer-Patrick as the best race ever in a World Championships. The Briton was the favourite after moderate early-season form by the American, but Farmer-Patrick had since switched coaches and showed a marked improvement in Stuttgart. She clocked a season's best in the semi-finals.

Two days later, the American (lane 6) raced into a comfortable lead by 200m but Gunnell ran a strong bend and drew level by the eighth hurdle. The American edged ahead again and gained a little ground from Gunnell at both the remaining hurdles. The race was decided on the 40m run-in. Gunnell managed to creep in front, but it was so close that several seconds passed before she realised she had won the race and broken the world record. Farmer-Patrick, who fell to the track at the finish, was also inside the old record.

Absent, for various reasons, were Sally Gunnell, Sandra Farmer-Patrick and Marie-José Pérec. It was felt that the event was of a low standard and this seemed to be confirmed by the preliminary races; a time of 56.75 was sufficient to win a place in the final. There was no indication of the tremendous race which was to unfold.

The principal contenders were the Americans Tonja Buford and

Kim Batten. Batten (lane 5) went out hardest and led at 200m from Hemmings. Buford (lane 3) ran an excellent final bend and was level with her team-mate at the eighth barrier. Batten had a slight edge down the finishing straight but Buford did not fade. Batten's advantage was cut when she stuttered at the 10th hurdle. Buford – shorter of the two but with a longer stride – closed further on the run-in, but at the line it was Batten who produced the more determined dip. It won her not only the gold medal but also a world record of 52.61. For the second successive World Championship, the runner-up was also inside the previous record as Buford clocked 52.62.

"I was really scared," said Batten. "Tonja's pretty quick on her feet. I didn't know if I'd beat her. I felt if I could get to the eighth hurdle in the lead, I could beat Kim," said Buford. "I couldn't quite get her but I'm still excited to beat the world record."

The winner had undergone an emergency appendectomy the previous May and only just recovered in time to contest the US trials for Gothenburg.

The form book pointed to a battle royal between defending champion and world record holder Batten and her Olympic conqueror Hemmings. They did indeed battle it out far ahead of the rest until Batten made a serious mistake at the eighth hurdle and the Jamaican appeared to have the race locked up. However, Bidouane – who had pulled off a shock win over Batten and Hemmings in Rome in June – had other ideas. Buoyed up by an African record of 53.48 in winning her semi, the Moroccan took no notice of her rivals' furious pace – touching down after the sixth hurdle in 28.44 as against Hemmings' 27.76 – and consequently found herself with plenty left for the closing stages. A distant fourth entering the finishing straight, she drew level with Batten at the last hurdle and edged past an astonished Hemmings in the final few strides for victory in 52.97.

Until this race Bidouane's international championship career had hardly set the world aflame. A semi-finalist at the 1991 Worlds and 1992 Olympics, she failed to finish her heat at the 1993 World Championships, was disqualified in her heat two years later and had to miss the Atlanta Olympics because of Achilles tendon surgery. She became the second Moroccan woman to win a major 400m hurdles title, Nawal El Moutawakel having triumphed at the 1984 Olympics.

A sad footnote: Making an encouraging comeback after injury, Gunnell (the 1993 champion in world record time) clocked her best time for three years with 54.53 in her heat only to re-injure herself warming down and being forced to withdraw from her semi-final. It was the end of a brilliant career.

Defending champion Bidouane and Olympic Champion Hemmings went into the event as co-favourites, their prospects enhanced as an injured Tírlea was a non-starter. They duly won their semi-finals but in the final both were shocked by World Student Games Champion Pernía. The 22 year-old Cuban had made enormous progress already that year, from 55.51 to 53.44, but again was a revelation. Drawn in lane 5 with Bidouane (4) and Hemmings (3) inside her, she led into the finishing straight. She was still ahead when she clattered the last hurdle, seemingly destroying her chances of an upset victory. Bidouane seized the initiative, but Pernía not only miraculously kept her feet but managed to recover to pip Bidouane on the line.

It was so close that Bidouane, who set an African record of 52.90, wrapped herself in the Moroccan flag and began a lap of honour, only to fall to the track in horror when she heard the result. Pernía's 52.89, a Cuban record, ranked her sixth-fastest of all-time while London-born Blackett set a Barbadian record of 53.36 in fourth place.

Bidouane regained her title with ease. She waited as first Pernía then Nosova led before storming away after the eighth barrier. Her winning margin of 0.93 was the widest ever in this event, and her winning time was a world-leading 53.34.

Three weeks before the final Pechonkina (née Nosova) had surprisingly cut the world record to 52.34. In the preliminaries, she went off hard, then eased to fast clockings of 54.01 and 53.57. In the final the Russian raced off again in lane 5, making up the stagger on Glover (lane 6) by the fourth hurdle. The other protagonist, Pittman, was drawn inside Pechonkina.

The Russian continued to look set for a sub-53 clocking until faltering at the eighth hurdle. She was 5m ahead at the ninth but slowing. Pittman and the smooth-striding Glover were closing the gap. The young Australian caught the Russian with 30m to go then Glover also nipped ahead of Pechonkina, who revealed "at the ninth I felt some pressure on my hip muscles and decided not to sprint flat out to avoid injury."

In previous championships Pechonkina had often under-performed when it came to finals. In Helsinki she was much the quickest in the heats before running the fastest time of the semis with 53.86, beating Demus handily.

There was drama at the start of the final when twice Pechonkina was warned that her foot was illegally placed in her blocks at the "set" stage. Out in lane eight, Demus led for the first half of the race, and then Pechonkina's power began to tell, and she won by 3m from Demus, who had to close strongly to take the silver from 36 year-old Glover. A United States protest that Pechonkina's lead leg had gone round the first hurdle was rejected.

Final (Aug 30)

1, ¹⁵¹	Jana Rawlinson	AUS	53.31
2, ¹⁶¹	Yuliya Pechonkina	RUS	53.50
3, ¹⁷¹	Anna Jesień	POL	53.92
4, ¹⁴¹	Nickiesha Wilson	JAM	54.10

6, ¹³¹	Yevgeniya Isakova	RUS	54.50
7, ¹⁹¹	Tiffany Williams	USA	54.63
8, ¹²¹	Tasha Danvers-Smith	GBR	54.94

The world list was headed by Williams (53.28) and Johnson (53.29), but neither athlete had run quicker than 54.40 since June, while the enigmatic Pechonkina had won the Russian title at the end of July in 53.61. Also rounding into form was Rawlinson (née Pittman), the 2003 winner, who had won in Monaco on July 25 with 53.46.

Williams had been the fastest in the heats, Rawlinson, Pechonkina and Jesień were the semi-final winners. Williams, in the outside lane, started fastest in the final, but soon faded, and the gold was fought out between Rawlinson and Pechonkina. The Australian was ahead of the Russian from the second hurdle on, and it was only at the last barrier that Pechonkina was able to close within 0.20 of Rawlinson. Showing great ability to run her best when it mattered, Rawlinson's time was the second best of her life, the best coming when she won the 2003 title, and in doing so she tied Nezha Bidouane as the only athlete to win two 400 hurdles women's titles, but still no-one has defended this title (or the women's marathon) successfully.

Demus established herself as favourite with her 52.63 in Monaco at the end of July. She led from the gun, and was a metre ahead of Walker at the third hurdle. Walker edged ahead at the fifth barrier, but Demus regained the lead and by the eighth as was more than a metre ahead (36.65 to 36.81). The two were level approaching the ninth but then Demus stuttered. As the American lost momentum, the Jamaican gained over half a second by the 10th hurdle, and then was appreciably stronger on the run-in. Walker's reward was the second-fastest time ever, missing the world record by just 0.08. Demus held off the vastly-improved Lucas, who smashed her Trinidadian record. Others setting personal bests were Spencer and Antyukh.

On her victory lap, Walker was given a piggy-back by the ubiquitous Berlin mascot Berlino who then ran straight into a hurdles cart and dropped the new champion heavily on her backside. Happily there was no harm done and the smiles continued, though at the medallist's press conference Walker twice said "I'm not a big lover of my event."

Spencer clocked a world-leading 52.79 four weeks before Daegu but the suffered an injury to her quad and groin and only made the final as a fastest loser and ended up with a poor lane draw given her condition. In the final, Demus and Spencer were out best and they were quickly joined in the lead by Walker. By the eighth barrier, Demus had a slight advantage over Walker, with Spencer in third but fading. Demus was a metre ahead at the last hurdle where Walker checked her stride. The American went a further metre ahead on the run-in. Antyukh caught Spencer in the last 10m to take bronze and leave the Jamaican in fourth place for the second successive championships. For Demus, it was a career peak: a US national record and the number three performance of all-time.

Rightful finalist: Denisa Rosolová CZE

Hejnová was hot favourite to win, with eight unbeaten races in 2013, capped by a world leading 53.07 in London three weeks before Moscow. The final was a parade for the Czech woman after her nearest rival, Shakes-Drayton, tore a knee cartilage and posterior cruciate ligament in the opening stages. The valiant Briton carried on and held fourth place for much of the race before finishing seventh, then sixth once the doping disqualification of Titimets was confirmed.

Meanwhile Hejnová won by 1.26 seconds from Muhammad, who passed her training partner and defending champion Demus on the run-in. In an event which had been won by less than 0.20 in eight of the previous 14 championships, this was a staggering margin of victory.

Spencer, a potential medallist, was disqualified for a trailing leg infringement after winning her heat in 54.10.

Final (Aug 26)

1, ¹⁵¹	Zuzana Hejnová	CZE	53.50
2, ¹²¹	Shamier Little	USA	53.94
3, ¹⁶¹	Cassandra Tate	USA	54.02

The Moscow winner Hejnová broke a bone in her left foot in January 2014. Her recovery continued in 2015 and she timed it to perfection with three big wins in Paris, London and Stockholm.

Once in Beijing, the Czech was the quickest in the preliminaries, then ran away from the field after the fourth hurdle in the final. Silver and bronze went to the USA, after Little (lane 1) crept past early leader Tate as both held off the strong-running Slott Petersen. At last, this world title had been successfully defended.

At the 2015 World Championships, Carter fell in the semi-finals. That moment was forgotten in London when she not only won the gold, but did so from lane nine, the first ever such victory in this event.

Olympic Champion Muhammad was fastest away in the final, and led by a metre from Carter and Tracey at the first hurdle. By halfway the two Americans were clear, while Tracey came under threat from defending champion Hejnová. Carter took the lead after the ninth hurdle, and won as that lead continued to grow. Tracey held on to third spot and became the only Jamaican woman to win an individual medal at London 2017.

“Going in lane nine, I had to go out hard”, explained the winner. “It was not a perfect race, but I am happy about it,” she reflected.

After 1993 and 1995, Doha provided another thrilling duel which resulted in a new world record. Olympic Champion Muhammad had already lowered the longstanding record of 52.34 to 52.20 at the US Championships, but it was clear that 20 year-old McLaughlin was a serious challenger. The two were the only ones quicker than 54 seconds in the semi-finals. They were joined in the final by six other women in the 54s.

The final saw Muhammad slightly ahead at the second barrier. At halfway she had over a metre's advantage over her compatriot, with Sprunger two metres back ahead of Watson. The advantage was up to 2m at the seventh barrier. Muhammad maintained her advantage to the final hurdle then held on as McLaughlin fought back on the run-in. The world record was snipped to 52.16 with McLaughlin recording the third-quickest of all-time. Way back, Clayton came through the field for the bronze. The winner confirmed what we all had seen: “I just

Bykova and Meyfarth staged a compelling battle for the gold medal. The former (half Russian, half Greek) had a perfect record of first-time clearances at every height up to and including 1.97. Meyfarth – the world record holder – was the only other athlete to go that high, but had recorded one failure at both 1.95 and 1.97. Meanwhile the bronze medal had been won by Ritter, who cleared 1.95 on her second attempt to beat her compatriot Sommer on countback.

At 1.99, Bykova faltered for the first time with a clumsy failure. Meyfarth saw her chance and went over first time to take the lead. Bykova made it on her second try and the bar went up to 2.01.

The Soviet jumper went over first time again and regained the lead, as Meyfarth failed. The West German passed and took her remaining two tries, unsuccessfully, at 2.03. Bykova, now confirmed as the winner, also had three unsuccessful attempts at this world record height.

Like in Helsinki four years earlier, Tamara Bykova was involved in a terrific contest for the gold medal. This time her opponent was Stefka Kostadinova, the world record holder at 2.08. These two dominated the final in which they were the first two to jump.

At 1.99 the medallists were clear. Bykova and Kostadinova continued their record of first-time clearances. The only other woman to make 1.99 was Beyer, on her second attempt. She went out at 2.02. The leading two each succeeded first time.

At 2.04, Bykova went clear again but Kostadinova failed twice. She made it, easily, on her third try. It was the first time two women had cleared that height in the same meeting. The next height, 2.06, saw Bykova fail for the first time. The Bulgarian followed with a miss. Bykova failed a second time, before Kostadinova produced a successful clearance to take the lead.

The Soviet jumper now needed to go higher with her last try to win. Amid the excitement of Ben Johnson's sprint win, she went for 2.08 and failed. The triumphant Kostadinova then had the bar raised to 2.09 which she cleared on her second try. Just 10 minutes after the infamous 9.83 100m, Rome had seen its second world record. The biomechanical report of the event noted that Kostadinova's centre of mass was as high as 10cm above the bar at during her record jump.

Henkel, who as Heike Redetzky had finished sixth in Rome, was unquestionably the world's best high jumper and proved this in Tokyo with a crushing victory.

The German, who wore a tee-shirt with the message "to the top without doping", between jumps, had effectively won the gold with her first-time clearance at 1.98. The only other woman in at that height was Yelesina. She failed twice before going out with one last try at 2.02.

Henkel then had a massive clearance at 2.02 before setting a personal best of 2.05. It was only at 2.07 that the German failed for the first time.

It was a major surprise that Kostadinova, Henkel and Astafei did not win one medal between them. The Bulgarian narrowly failed to qualify for the final, the German did but withdrew injured, and the Romanian simply did not click when it mattered most.

One of those who did rise to the occasion was Olympic fifth-placer Kirchmann, who set an Austrian record of 1.97 on her second attempt to guarantee a medal. Quintero went over on her third attempt at that height, but it was her teammate, Costa, who was in the gold medal position. She had first-time successes at 1.91, 1.94 and, easily, 1.97. Three other women went out at this height.

The three leaders all failed once at 1.99. On the second round of tries Quintero made it cleanly. Both Kirchmann and Costa failed again before passing and trying in vain for 2.01.

Quintero ended the competition with two good tries at 2.05.

Neither Kostadinova nor her husband and coach Nikolay Petrov had been expecting such a quick comeback for the world record holder following the birth of their son in January 1995. She began her season on July 20, leaping 1.94, and made a late decision to compete in Gothenburg.

A season's best of 1.95 in the qualifying round justified that decision. In the final, Kostadinova's great experience showed as she coped best with the difficult wind conditions and frequent interruptions by running events and medal ceremonies on the final day of the championships. She had no failures up to and including 1.99, which she cleared easily. This record put her in the lead from Astafei, whose only failure came at 1.90. The other woman in at 2.01 was Babakova. All three failed their first tries at that height; Kostadinova made it easily on her second. The title was hers again after eight years as the other two failed.

Four women remained in the competition as the bar was raised to 1.99. Haugland, Babakova and Kaliturina had all compiled faultless records at 1.85, 1.90, 1.93 and 1.96 to share the lead, while Lyakhova – who had made third time clearances at 1.93 and 1.96 – was in fourth place. As nobody cleared 1.99 a three-way jump-off for the gold medal was declared. The bar remained at 1.99 and Haugland, jumping first, cleared. Kaliturina and Babakova needed to do likewise to keep their

hopes alive, but both failed and the title passed to the Norwegian whose father was an international long jumper and grandfather placed fourth in the triple jump at the 1946 European Championships. Injury prevented Kostadinova from defending her title.

There was a major shock before the final even got underway as Cloete, who had ended her European tour with victories at 2.00 in Paris, 1.97 in Stockholm and a world leading 2.04 in Monaco, failed three times at 1.92 and was eliminated. In the final there were a dozen women clear at 1.93 and seven made 1.96. The early casualties included defending champion Haugland and the possible favourite, European Champion Dinescu, who was handicapped by a left hamstring strain. Lapina was only seventh after clearing 1.96 at the final attempt (as also 1.93) but at 1.99 another last-gasp success at what was a personal best clinched a bronze medal for her. Babakova cleared at the first, Yelesina at the second and that decided the final outcome as no one made 2.01.

It was fourth time lucky for Babakova (32), an ethnic Lithuanian born in Turkmenistan but representing the Ukraine, having placed third in 1991 and 1995 and equal second in 1997. She had been in training for only six months following the birth of her second child and had not expected such a result. Yelesina was competing in her first World Championships since her silver medal in 1991.

Of the four women who cleared 1.97, Cloete and Bergqvist had perfect records. At 2.00, Bergqvist (and Veneva) went out. Defending champion Babakova and Cloete failed once, then in the second round the Ukrainian cleared. Cloete also succeeded, meaning that Babakova would need to go higher in order to retain her title. In fact both failed at 2.02, so Cloete became the first South African woman to win any World Championship medal. "South Africa saved the best until last" said Cloete, reflecting on a day when her country also collected an unexpected silver (later promoted to gold) in the men's 4x100m relay.

Cloete retained her title in commanding fashion, for she did not register one failure at all heights up to and including a Commonwealth and African record of 2.06. Eight women attempted 1.98 and four of these were successful: Kuptsova, Cloete, Veneva and Bergqvist in that order. At 2.00, the Bulgarian was eliminated, so for the first time at a World Championships all three medallists would clear 2.00 or better. At 2.02 both the Swede and the Russian failed on their first attempts. Cloete sailed clear without touching the bar and then could relax while her opponents both passed up to 2.04. Each failed once, but Cloete was instantly successful once again. Bergqvist tried 2.04 again and failed, while Kuptsova tried 2.06. Even if she had cleared she would have needed to go higher for victory, because once again Cloete went over. The South African went on to attempt 2.10.

During the outdoor season there had been seven jumps of 2.00 or better, with Bergqvist owning four of them. A favourite both of the crowd and the pundits, Bergqvist took the lead with a first-time clearance at 1.96. Howard, twice over 2.00 two weeks earlier, was no surprise as the second jumper over 1.96, but Sweden's Green, improving her lifetime best, was a revelation. At 1.98 Bergqvist and Howard repeated their first and second-time clearances, which became second and third-time successes at 2.00. The Swede then poured herself over 2.02 to make certain of the gold medal, before three speculative attempts at 2.10. Her win capped a remarkable comeback after having ruptured an Achilles tendon in July 2004.

A record 16 attained made the automatic qualifying height of 1.94, which led to a long final. Rather than being detrimental to the quality of the event, this appeared to enhance it. All athletes cleared at least 1.90, and a record five jumpers made 2.00, with three over 2.03 for the first time in one competition. Both defending champion Bergqvist and European Champion Hellebaut performed below expectations, but three of the top five equalled or set personal bests. The 1.69 tall Di Martino not only outjumped Olympic Champion Slesarenko for a share of the silver but with her 2.03 set a world women's "differential" high jump best of 34cm above her height.

With the bar at 2.05, Vlašić was in gold medal position, while Chicherova and Di Martino had identical records. The Russian and Italian could not clear 2.05 and so shared the silver medal, while the 1.93 tall Croatian went over 2.05 at her final attempt.

Anticipation was high for a great clash after Friedrich had jumped 2.06 in the Golden League meeting in the Olympic Stadium in June to defeat reigning champion Vlašić.

In World Championship final two months later, the medals were sorted out at 2.02. Chicherova, who had cleared 1.99 easily, then made 2.02 with her first jump, though she caught the bar with her thigh on the way down. Vlašić went on at her second attempt, which left Friedrich in third place. Concentrating on her final jump, she lifted her index finger to her mouth gesturing for less noise, and 50,000 people – who had just seen Usain Bolt break the world 200m record – went completely silent. The eerie moment of athletics magic was shattered by the roar as Friedrich cleared to cement the bronze medal position ahead of Di Martino and Beitia.

Vlašić won by being the only one succeed at 2.04, though Friedrich narrowly failed (“only by the breadth of a hair”) at 2.06 (after two misses at 2.04). Chicherova (initially) won her second consecutive silver medal, her fourth successive placing in the top six. After the championships Vlašić improved to 2.08, and second place on the all-time list.

More than seven years later, the IOC announced that Chicherova had been stripped of the bronze medal she won at the 2008 Olympics. A re-analysis of her sample from then resulted in a positive test for the prohibited substance dehydrochloromethyltestosterone (turinabol). Fifteen months later the AIU confirmed that all Chicherova's results between the Augusts of 2008 and 2010 were to be disqualified, so Friedrich and Di Martino got podium upgrades. Chicherova's compatriot Slesarenko was another finalist to be doping-disqualified.

Double World Champion Vlašić had reached 2.00 just once prior to Daegu, and an injury to her left leg had caused her to consider dropping out. The favourite was therefore Chicherova, who had returned from maternity to set a Russian record of 2.07. These two principals, along with Di Martino, were perfect up to and including 1.97. Slesarenko also made that height, but was ultimately disqualified for an historic doping offence.

At 2.00 Slesarenko and Shkolina failed, while Chicherova cleared first time, Vlašić second time, and Di Martino on her third. This meant that the medallists would be the same as in 2007. At 2.03, Vlašić was again over with her second jump, lightly brushing the bar, while Chicherova cleared around 2.06 at her first attempt at 2.03. Neither was able to go higher so the gold went to Russia. The Croatian noted “I think I did good under the circumstances.”

The top four athletes from the London Olympics filled the same positions in Moscow, but not in the same order. Up to 1.97, Barrett, Beitia and Chicherova held the lead, but at 2.00 this changed with first Barrett and then Shkolina making first-time clearances. None of the other jumpers could clear 2.00, though Chicherova was very near with her last attempt. The gold medal was settled two jumps later when Shkolina cleared 2.03 – her personal best – at her first attempt. In succeeding the deeply disappointed Chicherova as World Champion, Shkolina became just the second Russian to win gold since Tamara Bykova took the inaugural title in 1983, or so we thought.

The winner was named as one of 12 Russian athletes sanctioned by the Court of Arbitration for Sport in connection with the findings of the World Anti-Doping Agency-commissioned reports by Professor Richard H. McLaren and the related Evidentiary Disclosure Package. That was in February 2019, with the judgement being that Shkolina should be banned for four years from 2019, with the further annulment of results in 2012-2015. The appeal process took more than two years, then in May 2021, the AIU were able to confirm her disqualification.

For the first time in World Championship history, six jumpers cleared 1.99. As the contenders began their next round of jumps at 2.01, the lead was held by Ličwinko, Kuchina and then the oft injured Vlašić. The Croatian was the first to clear, followed by Kuchina, and then, with her second jump, Chicherova. Now Kuchina was ahead on countback. Vlašić and Chicherova, who between them had won three of the four previous titles, were in second and third. The Croat was particularly proud of her result, having made a very late decision to compete in Beijing because of a severe problem with her right Achilles tendon.

None of the others were able to clear 2.01, and when the top three failed at 2.03, Kuchina had won. The 22 year-old had cleared 2.01 indoors in 2014, but her jump here was an outdoor personal best. This was the final Russian World Championship gold before the their federation were suspended by World Athletics later in 2015.

The defending champion had a new name and a new affiliation but won the same title again. In March 2017 she married Vladas Lasitskas and Kuchina became Lasitskenė. Then in April she was cleared by the World Athletics Doping Review Board to compete as a neutral international athlete (the Russian Federation being suspended from international athletics because of mass doping violations).

Only Lasitskenė had cleared 2.00 during the year, 15 times in 11 competitions, with a best of 2.06. She was one of six clear at 1.95, but after 1.97 the field was down to three Ls: In draw order, Ličwinko, Lasitskenė & Levchenko. At 1.99, only the neutral failed first time. Order was restored when she then passed to 2.01 and cleared that height immediately. Levchenko made 2.01, a personal best, on her second try while the Pole failed twice before taking her third at 2.03. Lasitskenė settled matters with the only clean jump at 2.03, before trying 2.08.

Lasitskenė, again cleared to compete as an "Authorised Neutral", collected her third title. In Beijing she won with 2.01, in London it was 2.03 and in Doha she needed a first-time 2.04 to keep at bay the brilliant Ukrainian teenager, Mahuchikh. The Russian had eight successive first-timers between 1.84 and 2.04. By then only Mahuchikh was still in contention, having cleared a world junior record of 2.02. Bronze and fourth went to Cunningham and Levchenko. Both cleared 2.00, with the American prevailing on countback.

After Lasitskenė's 2.04 (which some felt was worth 2.06), the 18 year-old Ukrainian had the stage to herself. Her second attempt at 2.04 was close, and then to the crowd's delight she cleared on her final jump for a second world under-20 standard. Rather than take on Lasitskenė at 2.06, Mahuchikh retired on the advice of her coach Tetyana Stepanova, who felt it was too exhausting, physically as well as psychologically, for her to jump higher. It transpired that Stepanova had originally wanted Mahuchikh to stop at 2.02, but agreed when her athlete asked if she could try for 2.04. Lasitskenė went for 2.08, but without success. At 18 years 11 days, Mahuchikh replaced Heike Daute/Drechsler and the youngest ever World Championship medallist in a field event.

New standards for this popular and fast developing event were set as, despite a no-height by World Indoor Champion Ryshich, and a disappointing display by world record holder George (only just back from injury), seven women cleared 4.40 or higher. Balakhonova led for most of the contest with five first-time clearances to 4.55 (matching her European record) before failing for the first time – and so narrowly – at a world record equalling 4.60.

In contrast, Dragila needed 13 jumps before she attempted 4.60 but the American feels she reaches her peak after a dozen or so vaults and she went clear at her second try at 4.60 to become joint world record holder and – as she had indoors two years earlier – the inaugural world champion. Bronze medallist Grigorieva, the Russian turned Australian, took only three jumps before bowing out at 4.50.

Sadly for Dragila, the \$50,000 bonus for world records in Seville was not awarded for equalled records. Furthermore, as the event still regarded as in development, she only received half of the \$60,000 on offer to the winners of established events.

It was the greatest women's pole vault contest ever, despite equipment failures, officiating errors, interruptions due to medal ceremonies and unhelpful weather conditions with the sun in the face of the vaulters.

Eight women were left in to attempt 4.50, but initially the bar had been set accidentally to 4.55. When it came to 4.55, the mechanism setting the depth of the crossbar had failed, meaning that the left side of the bar was progressively placed one centimetre too far each time it was returned. Once these problems were noticed, all failures which they may have caused were annulled and further attempts were allowed if necessary.

Five were still in when the bar was correctly set at 4.55, and three of those (Dragila, Feofanova and Pyrek) cleared first time. Grigorieva made it on her second attempt, so when she and Pyrek went out at 4.60, the Australian wound up fourth. Defending champion Dragila and Feofanova made 4.60 first time, and it was not until 4.65 that either failed. The American then went ahead by clearing on her second attempt while the Russian needed three goes. At 4.70 and 4.75 their perfect vaulting continued, with first-time successes for both. The bar then went up to the world record height of 4.82. A world record would have earned a \$100,000 bonus, but after four hours of competition in the hot sunshine, it was not to be. Neither woman came particularly close. "Had the wind been more favourable, both of us could have bro-

The contest did not match that of 2001 even though Dragila and Feofanova were now joined by new world record holder Isinbaeva. At 4.55 the two Russians went ahead with their first-time clearances. Dragila and Pyrek needed three attempts. The Germans Becker and Buschbaum were also still in the competition, but passed that height. All five tried 4.60 with Becker and Feofanova – the first two to vault – instantly successful. Isinbaeva made it on her second try but Dragila and Pyrek failed three times. At 4.70 Becker and Feofanova again matched one another with second-time clearances. Isinbaeva failed twice and saved her last try for 4.75. At that height Feofanova finally broke away from Becker by clearing first time. The German and Isinbaeva could go no higher so Feofanova – who had a temperature of 38° on the even of the final – moved up one place from her Edmonton silver.

The level of Isinbaeva's domination of women's vaulting can be gauged by the fact that the biggest margin of victory in an Olympic or Worlds had been 39cm – by Frank Foss in 1920 – until the Russian's margin of 41cm in Helsinki. Her second jump of 4.60 would have been enough to win on countback, but she then cleared 4.70 before one failure at 5.01. Her second attempt left the bar untouched, as she had cleared with a margin of some 15cm!

The final had been postponed for two days because of gale force winds. Even so, conditions had been less than perfect, with just one other jumper (Gao) managing a seasonal best, and with only Pyrek able to jump higher than 4.50. It was Isinbaeva's 14th world record outdoors.

While Isinbaeva had twice been over 4.90 during 2007, it had not been a vintage season for her, and she was being pressed closely by Stuczynski who cleared 4.88 before Osaka. In Japan, however, the American was nursing an ankle injury and could clear only 4.50 in the final. Isinbaeva opened at 4.65, and then passed to 4.80, at which point Baďurová with a first-time clearance at 4.75, led on countback over Feofanova and Pyrek. Isinbaeva then made 4.80 on her second attempt, and so retained her title with just three jumps. The strength of the competition was such that third to ninth achieved the best marks for those position, making it the best ever in terms of depth.

Isinbaeva had won seven global titles since losing at the 2003 World Championships. In qualifying she had a huge clearance at 4.55 which appeared to be worth 5m+, but in the final her bubble burst. Despite clearing 4.70 in warm-up, she failed at her opening height of 4.75, at which point only four other jumpers were still in the competition. Pyrek and Johnson, faultless to that height, shared the lead, with Rogowska (one failure) ahead of Spiegelburg. When Rogowska cleared 4.75 first time to take the lead, Isinbaeva moved to 4.80, which, shockingly, she missed twice.

Johnson – daughter of 1972 Olympic bronze medallist Jan Johnson – shared the silver with Pyrek, who placed in the top four for the fifth time. Isinbaeva afterwards stated that her “mind was absent,” but “I do not regret I did not start at lower heights because even if I cleared 4.65 it would mean nothing.” The following week in Zürich, Isinbaeva broke her world record with 5.06.

As usual, the focus was on Isinbaeva, who returned from an hiatus in 2010 to vault 4.85 indoors then win in Stockholm at the end of July.

Nine woman athletes went clear at 4.65 in the final, but four were lost at 4.70, a height which only Suhr and Strutz cleared. Feofanova and Murer cleared 4.75 first time, and Isinbaeva passed to 4.80 after a failure, while Suhr went out. Strutz took the lead with a first-time clearance at a national record 4.80, a height which Murer made second time. Both Feofanova and Isinbaeva failed at 4.80, leaving the former with the bronze and “Issy” only sixth. Murer then produced the best vault of the day, easily clearing 4.85 to equal her South American record, Strutz missed at 4.90 in an attempt to take gold from the Brazilian.

In a competition enjoyed more than any other by a boisterous crowd, three women cleared more than 4.80 for the first time in a championship. Poor Spiegelburg was left empty-handed despite being clean up to and including 4.75. At 4.82, the three medallist emerged as the German was eliminated.

Both Suhr and Isinbaeva cleared on their second attempts, and Silva had the best clearance of the three with her final jump. Isinbaeva

began the jumping at 4.89 with a clearance which was worth 5.00. Suhr and Silva each had good jumps, but the gold belonged to Isinbaeva – her ninth global title.

When the bar rose to 4.80 in the final, Murer, Suhr, Morris and Bengtsson were the only athletes without any failures. The contenders were then reduced to three with Bengtsson the closest to a clearance of those who missed 4.80. Kiriakopoúlou cleared first time, then Murer and Silva went over on their second jumps. At 4.85 Silva went clear to take the lead briefly, as Murer then went into first place with her initial jump at 4.85. Like Silva, the Brazilian hit the bar on her way down.

The blonde, pigtailed Kiriakopoúlou opted for 4.90 after missing once at 4.85. She and Murer were close at 4.90, but it was Silva, on her third attempt, who flew over, exhibiting her technical excellence. Two good attempts out of three at 5.01 then followed to finish what had been an absorbing competition. Three-time champion Isinbaeva was absent after giving birth in 2014.

Of the seven women who cleared 4.65 in the final, only Stefanídi and Morris had clean slates. None of the other five were able to clear 4.75. Defending champion Silva and Peinado, the 19 year-old Venezuelan, had just one failure up to 4.65 and they each took home a bronze medal. For Peinado, it was the first world medal for her country.

Morris and Stefanídi both made 4.75 first time, and when the Greek went over 4.82 with her first jump, Morris took her last two attempts, in vain, at 4.89. Stefanídi then went on to set a national record 4.91, the world's highest vault of 2017, before trying to break Isinbaeva's championship record with 5.02. Stefanídi scored accuracy points from the biomechanics. Their studies showed that the apex of her gold medal vault was optimally placed, both horizontally and vertically. The Greek also generated a notable rise in speed with her final two steps, from 7.95 to 8.61 metres per second.

The event saw a record number of qualifiers, 17, all clearing the requisite 4.60. In the final, 12 made 4.70, and six then cleared 4.80, the surprise being that Suhr (4.91 in 2019) and Nageotte (4.86i) did not. Of those who cleared 4.80, Bengtsson got the biggest cheer on her return from a pole snap. Using one borrowed from Guillon-Romarin, she set a Swedish record.

At 4.85 Morris was over first followed immediately by Sidorova. Stefanidi cleared at the second time of asking. Bradshaw, Newman and Bengtsson missed, so filled positions 4-6. Morris and Sidorova were again perfect at 4.90. Defending Champion Stefanidi had one miss at 4.90 and then two at 4.95 to secure the bronze. Morris had three misses at 4.95, though two of these were agonisingly close. Sidorova failed twice before going over with something to spare. First to congratulate her was Morris, who collected a second consecutive silver. Authorised Neutral Sidorova came back brilliantly from her no heights in the 2015 final and 2017 qualifying.

An extraordinary standard was evident after the first six jumps of the final, by which time Beverly Kinch's new Commonwealth record of 6.90 was good enough only for fourth place. The leader on 7.00 was world record holder Cușmir, while in second place was Carol Lewis, younger sister of Carl.

In round 2, European Junior Champion Daute (18) overtook Cușmir with her 7.02. The Romanian countered with 7.15w in the third, but the GDR jumper, only 18, immediately followed with 7.27w despite falling back. The fourth round saw Proskuryakova move into third place on 6.92, into a headwind. Cușmir and Daute each produced 7m leaps, but neither improved. Lewis did: 7.04w to go into third. No-one improved in the last two rounds except Proskuryakova, whose final effort of 7.02 solidified her fourth place. Daute finished in style with a windy 7.26.

The clash of the two co-world record holders – Drechsler (née Daute) and Joyner-Kersee – was spoiled by an injury to Drechsler's left knee which prevented her from taking her last two jumps.

Even so, the GDR athlete would have needed to be at her best to have defeated the American, who leapt 7.36 in the third round. Joyner-Kersee, who won the heptathlon three days earlier, was initially given a red flag for her winning jump. This decision was reversed on closer inspection of the plasticine.

Drechsler, about to lose for the first time since 1985, was pushed back into third place when Belevskaya leapt 7.14 in the fourth round.

Just like 1987, Joyner-Kersee and Drechsler were the two favourites. Joyner-Kersee made the most of the fact that she was the first to jump in the final by leaping 7.32, her best for three years. Drechsler went into second place with 7.09 but slipped to third after Berezhnaya's 7.11. In the second round, the American fouled before Drechsler improved to 7.16. Joyner-Kersee passed her next jump, then Drechsler closed right up with 7.29.

This prompted the defending champion to take her fourth jump. It ended disastrously. Instead of planting her foot on the take-off board, she stepped on the plasticine and twisted her right foot. She landed heavily in the sand and looked to be badly injured. She thought she had broken her leg, but was able to get up and eventually jump again, producing 7.11 in the sixth round.

In the meantime, Drechsler had produced leaps of 6.99 and 7.08. With her last attempt she spanned 6.94, meaning that gold had gone once again to JJK.

Two-time winner Joyner-Kersee was not entered, having been persuaded to concentrate on the heptathlon. This left the way clear for Drechsler to attempt to regain her 1983 title.

The standard was lower than at the previous championships, and the German star was the only one to jump further than seven metres. This she did four times, topped by 7.11 in the third round.

Former World Junior champion Fiona May was not put off by the changing wind conditions which varied from 1.1 headwinds to assisting winds of 4.3. The Italian, who represented Britain until 1993, opened with 6.93, a distance no-one else would better. In the final round she improved to 6.98w despite hitting her head on the marker board beside the pit.

It was a big upset that Drechsler and Joyner-Kersee – winners of the past three world titles – did not win a medal between them. JJK, troubled by ankle and Achilles problems, only managed 6.74w for sixth place. Drechsler was in form and opened the contest with a foul further than seven metres. But she fouled again and her third leap of 6.64w was two centimetres short of eighth place.

The shock winner of the Olympic gold medal, Ajunwa, led the qualifiers by a whopping 21cm margin at 7.01 but, her left thigh heavily

strapped, she hurt herself on her first jump in the final and had to be carried off on a stretcher. Defending champion May led the final with her opening leap of 6.91 until local heroine Xanthou went ahead by 2cm in the third round. However, one round later the 1995 world indoor champion Galkina, a former world junior triple jump record holder, stretched out to a timely personal best of 7.05. Xanthou improved slightly to 6.94 to consolidate second place. May's 6.91 held up for bronze but, with thousands of Greeks whistling in an unsporting attempt to distract her, the British-born Italian marginally fouled her final attempt, landing beyond 7m. Drechsler, champion in 1983 and 1993, fell just short of a medal with her last jump and one place ahead of another former world champion and record holder in Jackie Joyner-Kersee. The 100m champion Jones, a novice at this event, placed tenth.

There was controversy surrounding the winning jump of Spain's Montalvo, runner-up to May in the 1995 World Championships when she represented Cuba. May, who led the qualifying with 7.04, opened with 6.92 and 6.94 and grew steadily more tense as all the other contenders fell short of the target. Montalvo, who had only qualified for the final on her third and last attempt, came closest with 6.88 in round 4, while third placed Jones improved in round 5 when Montalvo had a huge but invalid jump. Jones' final effort was a very narrow foul of beyond 7m but Montalvo uncorked the jump of her life. It was measured at 7.06 ... but was her toe over the board? Montalvo stated: "My last attempt was clearly valid. The take-off board shows no mark to indicate a foul." In contrast, a dispirited May asserted: "It was obvious-ly a foul. You could tell that by the replays."

Fiona May regained her title to become the first athlete to win World golds across three decades. She was World Junior Champion in 1988 and won world titles indoors in 1997 and outdoors in 1995 and now 2001. The British-born Italian had not been fancied to win, with a season's best of just 6.79. Yet she improved to 6.80 in the qualifying round where former champion Drechsler, her right thigh strapped, was eliminated.

In the final, May led all the way, starting with a 6.86w then 6.97 and 7.02w, which was also measured at 7.16w from her take-off point behind the edge of the board. In the fourth round Kotova – the favourite – spanned 7.01w (7.12w from take-off) while defending champion Montalvo moved into the bronze medal position. That was how it stayed until the finish. After the event, May announced she would be taking a rest from competition in 2002.

Like the men's final, the distances jumped were moderate. Going into the last round Kotova (6.74 & 6.72) led on countback from Barber (6.74 & 6.52). Kotova was the penultimate jumper in the final and her 6.63 changed nothing; the Sierra Leone émigré to France would need 6.73 or better for gold. The crowd were informed of the situation so Barber had thunderous support as she prepared for her effort, the last of the contest. She took off well before the foul line (though not disastrously so) and flew out to a distance which was instantly recognisable as one which would be enough for victory. It was 6.99. Measuring equipment at the take-off board confirmed she had 11cm to spare there, so her "true" distance was 7.10. On the penultimate day of the championships, Barber had won France's first gold in Paris.

Qualifying was headed by Madison with a lifetime best of 6.83, as only two jumpers made the mandatory qualifying of 6.65. The wind and rain played havoc with the final, as in round one the opening jump was aided with a wind of 2.8, while five jumps later the measurement was

-1.7. Kotova, the only jumper to produce six measured jumps, led after halfway with 6.79 from the 6.69s of Madison and Savigne. Barber moved into second with 6.70 in round 4. Remarkably the 19 year-old Madison then produced another lifetime best, this time 6.89, to take control of the gold medal. The positions stayed the same, though Barber improved with her 6.76w in the final round. Kotova had the frustrating situation of being the silver medallist for the third time in a row.

In May 2013 it was revealed that re-testing of doping control samples from Helsinki 2005 had shown an adverse finding for Kotova. Four months later, World Athletics confirmed that the Russian was suspended for two years to January 2015. All her results from Helsinki 2005 to August 9, 2007 were annulled. The new podium: Madison (then Bartoletta), Barber and Savigne.

The qualifying round was led by Russian Champion Kolchanova and the ex-heptathlete Gomes who both cleared 6.96. Brazil's Maggi reached 6.95 (or 7.07 from take-off).

Gomes led after the first round of the final with 6.87, with Kappler (6.81) and Kotova (6.80) next. Kolchanova opened round two with 6.84, and Lebedeva then powered off the board to 7.03 (7.08 from take-off). To emphasize the point, Lebedeva repeated her 7.03 in the next round. The Russian backed up her seven metre jumps with 6.98 in the fifth. It turned out to be Russia's day, as Kotova improved to 6.90 to steal the bronze medal from Gomes, increase her "world" medal collection to four, and give Russia her first ever sweep in a World Championship event.

The qualifying was led by Gomes at 6.86. Reese took the lead in round one of the final with 6.92, which Lebedeva overtook in round two with her seasonal best of 6.97. Reese responded in the next round with 7.10, a lifetime best (measured at 7.17 from take-off), which featured her characteristic basic "hang" style, and little leg extension on landing. Behind these two, Melis improved from 6.76 to 6.80 and moved ahead of Gomes's opener of 6.77. Reese had originally shown her liking for the big occasion when jumping a personal best in the Osaka qualifying, and the 22 year-old fulfilled her promise here.

The initial silver medallist became one of a number of Russian athletes who failed a re-test of her Beijing Olympic sample from 2008. After her case was concluded (in September 2018), she not only lost the two silvers she won at those games, but also her long jump silver and triple jump sixth place from Berlin 2009.

The qualifying round was led by Olympic Champion Maggi at 6.86. That turned out to be longer than the winning jump in the final, where the Brazilian could only reach 6.17 for 11th. Reese jumped 6.82 (or 6.90 from take-off) in the first round, and only Kucherenko, with two jumps at 6.77, could get close to the American.

Reese therefore retained her title with the shortest winning distance in World Championship history. The longest jump of the day was probably by fourth-placer Mironchuk-Ivanova, who cleared an official 6.74 in the third, but the jump was (correctly) measured to where the Belarusian's ponytail had hit the sand, some 10-15cm behind the mark made by her heels. Ahead of her was Raděviča, who only moved into a medal place with her last round 6.74.

The overall standard was poor, with Kucherenko leaping the same distance for silver as she had when placing fifth in Berlin. The picture got even dimmer when it was revealed that a re-test of the Russian's doping sample showed the presence of a prohibited substance. She was banned for two years and all results since Daegu 2011 were scratched, including a further fifth place two years later in Moscow.

Defending and two-time champion Reese barely made it to the final having placed eighth in her group and 12th overall. The American only advanced on countback because she jumped 6.57 twice whereas Jimoh did so once.

Reese clicked in the final with an accurate 7.01 in the second round. Only Okagbare was able to get close, and her fifth round jump

would have won had she been as efficient as Reese on the board. She jumped 6.99, but it was measured at 7.13 from where she took off, as compared to 7.016 by Reese. The American's win gave her an unprecedented sequence of six consecutive global titles indoors and out since 2009. Španović was third on countback from Sudareva, each with 6.82. The Belarusian actually had the longer single distance from take-off, 6.914 to 6.843.

Bartoletta's jump of 7.12 at the US Championships marked her as the favourite, and after a foul in the final she moved into contention with 6.95 behind the opening 7.01 of Španović. In round three the lead was taken by Proctor, an Anguillan who had transferred to Britain in 2010. She set a UK record of 7.07 (7.17 from take-off), backing it up with 7.01 in round four. Bartoletta, now third with the same distance as Nettey, then used her 10.85 100m speed in the last round. She took off with 2cm to spare to land at a winning 7.14, a lifetime best.

Španović showed fine competitive spark in equaling her national record from round 1 with her last jump, but the day belonged to Bartoletta. Under her maiden name of Madison she had won 10 years earlier in Helsinki. No-one previously had waited longer than six years to win a second individual world title.

Klishina started best in the final, with 6.78. That was supplanted by Španović, who, in only her third outdoor competition of the year, reached 6.96 in round two. The 'neutral' Klishina responded with 6.88, and these two were then overtaken by Reese, who improved from 6.75 to 7.02 in the third. Klishina, a fashion model based in Florida, continued to jump well, reaching 6.91 in the fourth, and then 7.00 with her next jump, her best outdoors for six years.

The final round saw Bartoletta move into a medal position with 6.97. Then Španović apparently reached at least 7.00 on her last jump, but her back bib made a mark in the sand at 6.91. World Athletics Rule 143.7 has since been changed so that no jump athlete need wear a back bib. Reese dedicated her seventh world title (four out, three in) to her late grandfather who had died two weeks earlier.

Biomechanical analysis showed that Bartoletta had the fastest last three steps (9.49 m/s, then 9.51 and 9.20). She then lost more speed on take-off (1.48 m/s) in comparison with the other two medallists. Her gap to the board plane was a reasonable 7cm, but if you add that to the distance she cleared from the board (6.97m), she had the longest leap of the final. In the qualifying rounds, it was most unusual that no one reached the automatic qualifying mark of 6.70.

It was the end of a World Championship era when the four-time champion Reese was eliminated in qualifying, missing the final by one centimetre. In front of all others at that stage was the favourite Mihambo, unbeaten outdoors in 2019 with a world lead of 7.16 at the German nationals.

The German started with only 6.52, taking off 59.7cm early. Next, she landed at around 7m but fouled by 11.3cm. Before her third attempt she was in seventh place with four more to jump. It was a vulnerable position, but not for long. This time Mihambo took off 8cm before the threshold and landed 7.30 after it. It was the highest-scoring women's performance at Doha 2019, according to the World Athletics Rankings tables.

Brume had started well with 6.83 and then 6.91. She held the silver medal until Bekh-Romanchuk reached 6.92 in the fifth. Mihambo finished in style with two more 7m+ efforts. She had the superior approach and jump speed throughout, quicker even than the former World 100m Champion Bowie, who moved into fourth in round four.

The inaugural title was won by a woman in her first season in this event who had failed to reach the Stuttgart long jump final. Biryukova started in style with 14.62, and improved to a personal best of 14.77 in round 2. Conversely, the world record holder Chen only just managed to qualify for her last three jumps.

By the start of the fifth round, Biryukova had a lead of 68cm from Kašpárková, who was about to plummet five places. The Russian increased her advantage with the first ever 15m triple jump – a world record of 15.09. The three phases of the jump were measured at 5.57, 4.47 and 5.05.

Three days after Jonathan Edwards's exploits there was another barrier-breaking world triple jump record in Gothenburg. Kravets added a phenomenal 41 centimetres to the previous record and became the first woman to triple jump more than 50 feet.

A world record attempt should have been the last thing on Kravets's mind. The Ukrainian was in trouble after fouling her first two jumps in the final. The reason for this, she explained afterwards, was that she found the runway so fast that she had increased the length of her usual runup. She also revealed that a photo of Edwards had provided her with inspiration before her crucial third jump. Instead of a "safe" jump, Kravets bounded to a world record of 15.50! It gave her the lead by 65 centimetres.

There had only been one legal 15-metre jump outdoors before the Gothenburg final. Afterwards there were five, because besides Kravets, defending champion Biryukova reached 15.08 in round 3. She was overtaken by Prandzheva, who went out to 15.18 in the fifth and 15.00 in the sixth. Kravets had a long foul in the fourth round and cleared 14.55 with her only other valid effort.

Despite the absence from Athens through injury of world record holder Kravets and 1997 world indoor champion Lasovskaya, and the dreadful injury sustained by 1993 world champion Biryukova in the qualifying contest (she ruptured a patella tendon), the final proved to be a thriller of the highest class.

Mateescu opened with a Romanian record of 15.16 for third place on the world all-time list but her Czech opponent, Kašpárková (formerly a 1.95 high jumper), was also in inspired form and set a national record of 15.01 in the third round prior to bounding out to 15.20 with her penultimate jump. That was a distance only Kravets had ever bettered. A Greek record of 14.62 briefly held third place for Vasdhéki until, later in the fifth round, Govorova cleared 5cm further.

British hope Hansen, suffering from a back injury after the first round, filled fifth place at 14.49; her 14.77 in leading the qualifiers would have won the bronze medal.

Few athletes have risen quite so fast from obscurity to world champion as Tsiamíta. In 1998 she improved drastically from a best of 13.27 to 14.23, placing ninth in the European Championships. Prior to Seville in 1999 she progressed to 14.94.

In the qualifying round the 27 year-old Greek, powerful but technically ragged, jumped fully 60cm more than anyone else with a national record of 15.07, and she confirmed her supremacy in the final. She opened with 14.88 and that was that. Nobody else could jump further than 14.61. Lebedyeva, who had shared top place on the world year list beforehand, was in tears afterwards as she placed fourth behind Aldama and Vasdhéki, the Cuban winning silver ahead of the other Greek on countback. Also distraught was World Indoor Champion Hansen, who followed two fouls with a despairing effort from a vast distance behind the board. An even sadder sight was world record holder Kravets, 22nd out of 25 in the qualifying with a dismal 13.49.

Lebedeva made up for her fourth place in Seville with a crushing victory, which was sealed with her first-round effort of 15.11. By the halfway point Olympic Champion Marinova was second (14.58) and Martínez – a Cuban adopted by Italy – third on 14.52.

The Russian followed her big jump with 14.93 and three fouls. In the final round, Mbango leapt 14.60 and rose to second spot. Marinova responded with 14.57, then it was up to Lebedeva to finish the contest in the knowledge that she was the champion. She hit the board perfectly to hop 5.52, step 4.21 and jump 5.52 for a total distance of 15.25, the third-longest ever and arguably the greatest of all the women's performances in Edmonton.

In her celebration she almost tripped on a cable when rushing to meet her coach. Afterwards, she paid special thanks to the crowd and joked that the attempt at dying her hair in the three colours of the Russian flag had not worked as her natural hair colour was too dark.

The first two were the same as in Edmonton, but Mbango closed the gap on Lebedeva who had given birth since her 2001 gold. The Cameroon jumper, who did much of her training in Paris, opened with 14.77. This was quickly bettered by the 14.80 of Lebedeva who was the last to go in each round. In the second Mbango – with hair dyed in national colours of red, green and yellow – went ahead with a new African record of 15.05. Lebedeva responded with 14.97 in the second then 15.16 in the third, an effort which included a notable 6.11 jump phase. In round 4, the 27 year-old Russian displayed great accuracy on the take-off board (one centimetre to spare) and bounded out to 15.18 (5.51, 3.85 & 5.82). Martínez held third place throughout the contest. Lebedeva became the first Edmonton champion to win again in Paris.

Tatyana Lebedeva, winner in 2001 and 2003, was the prohibitive favourite, but an Achilles tendon injury meant she had to withdraw from the final. Aldama led with 14.72 at the end of round one, but four jumps later she was third behind Pyatykh (14.75) and Savigne (14.73). Smith took the lead in round four at 14.91 despite taking off 39.8cm behind the board. She progressed to 15.11 (5.31 hop, 4.60 step and 5.20

jump) in the next round. Both Savigne (14.82) and Pyatykh (14.77) reacted well, but Smith was clearly superior on the day, and she finished with 15.01 to consolidate her victory, with only Pyatykh (14.78) improving in the final round. Smith stood on the medal podium with a crutch to support an ankle she had injured during the final.

Lebedeva was the favourite, having jumped 15.14 earlier in the season, though both Devetzí and Savigne were threats, the latter having jumped 15.09 before Osaka, while Devetzí produced that same distance to lead the qualifying round.

The consistent Greek began the final with 15.04, but was quickly overtaken by Savigne who moved to sixth all-time with 15.28. Lebedeva began with 14.75, 14.79 and 14.78, before spanning 15.07 in the fifth round. While Savigne and Devetzí were unable to get beyond 14.75 after round one, Lebedeva produced her fifth jump of the day at that level with her final effort of 15.01. However, the champion from 2001 and 2003 could never quite get on terms with the fluid Cuban.

Devetzí went on to duplicate her Osaka bronze at the Beijing Olympics, but in September 2016 it was established that a re-test of her doping sample from the 2007 World Championships had proved positive. She was given a four-year suspension and all her results between and including the 2007 and 2009 World Championships were annulled. In November 2016 Devetzí was formally stripped of her Olympic medal by the IOC. They reported that a further reanalysis of her samples from Beijing 2008 resulted in a positive test for the prohibited substance stanozolol.

Pyatykh therefore repeated her Helsinki bronze ... but only for 13 months, because in October 2017 a retest of her own Osaka doping sample confirmed the presence of a steroid.

Savigne was aiming for a third consecutive title, and with a 3-1 record against European Champion Saladukha in 2011 she was favoured to achieve that goal. Unfortunately a thigh injury kept her down to 14.43, and she retired after three rounds. Leading at that point was Saladukha who reached 14.94 with her opening jump, and her closest rivals were Rypakova (14.72) and Ibargüen (14.67). The Colombian moved into second place in the fourth round with 14.81 and improved to 14.84 (14.94 from take-off) in the fifth. The next jump was Rypakova's riposte - 14.89 (15.04 from toe to heel), and the medals were settled, despite another 14.80 effort by Ibargüen. She won Colombia's second-ever world medal, four days after Luis Fernando López won their first in the men's 20km walk.

Savigne retained the title she had won in Osaka, and gained her third consecutive medal, but jumped more than 30cm less than she had managed in 2007. The general low level of the competition made observers wonder if there was a problem with the run-up, but the subsequent men's competition was of good quality. Gay edged Pyatykh for silver 14.61 to 14.58, but that jump would not have won a medal in five of the previous World Championships. Of the finalists, only Topić set a personal best, improving her national record to 14.52.

In the 10 editions of the world championships to 2011, only once had the title been won with a jump below 14.90. The average winning distance was 15.13. In Moscow, a winning jump of 14.85 (14.948 from take-off) sufficed, and Ibargüen's second best jump of 14.83 (14.927) would also have been enough to take the title. Iburgüen, still undefeated since 2012, took the lead for good with her second-round 14.80. She had needed that jump, as Israel's Ukrainian transferee Minenko leapt 14.78 three jumps earlier in that round. Iburgüen made certain of the gold with 14.90 in the fourth. The only other jump of significance came in the last round, when Rypakova earned another medal in the event with 14.77. Just as at the Rio Olympics, it was a battle of South Americans Iburgüen and Rojas. Then, the Colombian came out on top. In London, it was Rojas who scored a hard-fought victory, the first by Venezuela at the World Championships.

They took turns leading at the end of each of the first three rounds. Iburgüen 14.67, Rojas 14.82 then Iburgüen 14.89. Meanwhile, Rypakova cleared 14.77, which ultimately meant she would win the same medal as in 2015 (bronze) with the same distance.

Into the fifth round, Rojas went first of the two principals and edged in front with a 5.10 hop, 3.95 step and 5.86 jump for a total of 14.91. Iburgüen responded with 14.71, meaning she had one more chance to defend her title. She fell just short with 14.88.

The winner's jump phases (as far as 5.87) were much the longest of all the finalists, though her steps were among the shortest.

The London winner Rojas showed her class with her first qualifying jump. It was a board foul and she throttled back, yet still landed, upright, at around 15m. She and Diamond League Champion Ricketts impressed from round 1 of the final. The Jamaican spanned 14.81, then the defending champion went out to 14.87 from a point 21cm before the front board edge. The Venezuelan then hit the board accurately, and went out to 15.37 (5.71/4.03/5.63), the fourth-longest ever. Ricketts reacted well in the third, jumping 14.92. Rojas returned with a foul estimated at 15.55, then a legitimate 15.18. Williams held third until 35 year-old Olympic Champion Iburgüen landed at 14.73 with her penultimate jump to win a fifth consecutive medal.

A most heartwarming moment occurred in the final round when 34 year-old Fibingerová scored an unexpected victory over the highly favoured GDR putters. On paper, Slupianek was expected to add the first world title to her Olympic title and world record. In the event, she was struggling with a tendon injury and could not better her opening throw in the final (20.56). Instead her team-mate Knorscheidt went in front with 20.70 in the second round. Soviet throwers held third and fourth places until the last throw of the fifth round, when Fibingerová moved to fourth place with 20.30.

In the wet conditions, nobody could improve in the final round before Fibingerová entered the circle for the last throw of the contest. The Czech putter had a reputation for performing well in the rain and her last effort landed clearly beyond the yellow 21m line. Knowing she had won, she threw her arms in the air and raced out of the circle. Every official in range was then hugged by the emotional winner.

"A month ago, my father died," revealed Fibingerová after the medal ceremony. "I was very sad and still am. My mother is too. On my last attempt, I thought of my father and my mother. I picked up the yellow shot and said 'This is the shot of gold!' And so it was."

Lisovskaya – who had improved her own world record to 22.63 the previous June – was given a scare by Neimke. The 21 year-old GDR putter produced a personal best of 21.21 in the second round. Lisovskaya responded with 21.16 in the third but did not get in front until her 21.24 in the fifth.

Though her margin of victory was not particularly impressive, the Soviet putter must have been relieved to have won the gold. She had been the favourite at the previous year's European Championship but placed only ninth.

Asia won its first ever world outdoor athletics title when 26 year-old Huang Zhihong easily beat the defending champion Lisovskaya. The Soviet took the lead with her first put of 20.15, but she was immediately overtaken when the next woman – Huang – put 20.64. The Chinese woman went even further in the second round (20.83) to solidify her grip on Tokyo's first field event gold.

Lisovskaya was pushed back to third when Krivelyova produced 20.16 in the third, but the 1987 winner clinched the silver with 20.29 in the fifth. "When I won I felt so elated I couldn't think of anything else," said the exuberant winner. "The Japanese people in the crowd really supported me and gave me strength."

Huang won with even more ease than in 1991 and became the only woman to successfully defend a field event title in Stuttgart. Olympic Champion Krivelyova went to the front with 19.97 in the first round. The Russian could throw no further, whereas Huang produced four 20m+ puts, just as she had in Tokyo. In third place throughout the contest was the 1987 runner-up, Neimke.

Like John Godina in the Gothenburg men's shot put final, Astrid Kumbernuss dominated from the start. Her opener of 20.52 would have been good enough to win as would all her valid puts.

Kumbernuss, sporting heavily strapped knees, produced a put in the third round which landed much further than the three arcs marked on the throwing sector. It was a personal best of 21.22 which gave her a lead of 1.18m from defending champion Huang. That is how it finished, with the widest winning margin ever at world or Olympic level. Mitkova took the bronze from Neimke in the final round.

Kumbernuss couldn't wait to avenge her 1997 World Indoor Championships defeat by Pavlysh, a result which terminated the German's 53-win streak. "Losing in Paris," she said, "lit the fire again inside me"; she "wanted to show who is boss in the ring." Following an opening foul by Pavlysh, Kumbernuss started purposefully with 20.59 to establish a lead she was never to lose ... although it was close. Pavlysh threw 20.57 in the second round and although Kumbernuss responded with 20.71 the Ukrainian was always a danger and finished only 5cm down with 20.66, a far cry from the German's 1.18m winning margin in 1995 over Huang Zhihong. The latter, champion in 1991 and 1993, finished fourth this time behind Storp, Kumbernuss's training partner, whose bronze medal winning distance of 19.22 would have netted her 12th place in the 1987 final.

Back in January 1999 when Kumbernuss, six months after giving birth to a son, was barely able to reach 12 metres with a standing put in training, it must have seemed like an unattainable dream ... but retaining the world title she did. Early in the season she was consistently losing, but this athlete, who once went unbeaten in 53 contests, gradually rediscovered her strength and technical prowess. With 19.76 to her name she went to Seville second on the world list to World Indoor Champion Krivelyova (20.26). The return to big-time competition fired her up and in round 2 she took the lead with 19.34 and increased it with her next three throws to 19.59, 19.62 and 19.85. Team-mate Kleinert snatched second from Krivelyova with a fifth round personal best of 19.61.

Three-time winner Kumbernuss slumped to sixth place while Korolchik, a surprise Olympic Champion in 2000, was completely dominant. Her qualifying throw (19.87) alone was longer than anyone else could manage in the entire competition, and in the final she put 20.61 in the third. Kleinert-Schmitt, wearing black and red hair, repeated her 1999 silver. She let out a squeal of delight after her final put which landed at a personal best of 19.86.

The medal positions were unchanged after round 2 and the bronze went to Athens silver medallist Pavlysh.

Contesting her sixth final, Krivelyova finally added a gold medal to go with her Olympic title of 1992. Ostapchuk had the leading qualifying mark of 19.56 and went even further with 20.12 in round five of the final. By then the 34 year-old Russian was in a commanding lead at 20.63. The only other one over 20m was Pavlysh who took the bronze medal, just two places ahead of promising junior Adams. Former winner Kumbernuss failed to reach the final.

In five of the previous seven championships, the title had been won by more than half a metre. Ostapchuk, the only thrower to reach 20m ensured a similar win for herself with her opening throw in the final of 20.30. Of the finalists only Krivelyova (with a best of 21.06 from 1992)

had ever thrown further, and only Cumbá, with 18.37, was within 2m at the end of round one. Ostapchuk had three other fair throws: 20.13, 20.23 and 20.51. Round three saw the other medals decided as Ryabinkina threw 19.64 two throws before Vili managed 19.62.

Krivelyova finished fifth, but all performances by her between August 2004 & 2006 were annulled when a re-test of the doping sample she had given at the 2004 Olympic Games proved positive. Then in March 2013, it was announced that a re-test of the samples taken in Helsinki had shown adverse findings for several athletes including Ostapchuk. She had in the meantime been stripped of a gold at the 2012 London Olympics because of a further infraction. In February 2014, World Athletics confirmed the Belarusian's punishment package. She was banned for four years in 2012-2016 and all her results between Helsinki 2005 and August 14, 2007 were annulled. So after nine years, Ryabinkina became the rightful World Champion, from Vili and Kleinert.

The only athletes further than 20m prior to Osaka were Ostapchuk, Lammert and Vili. Ostapchuk scared herself in the qualifying, throwing 18.23 to become the 12th qualifier by a margin of just four centimetres. Buoyed up, the Belarusian opened the final with 20.04 to head Vili 19.89 and Lammert 19.33 at the end of round one.

Kleinert moved into bronze medal position in round two with 19.45, while Vili tried to make inroads into Ostapchuk's lead. Her 19.74 in round two was followed by 19.80 in the next round, and 19.95 in round five, while Kleinert made a further improvement to 19.77, also in the penultimate round. Li slipped by Lammert for fourth with 19.38 in the final round. The imposing (1.93/121kg) Vili then produced a Commonwealth record of 20.54 to move into a big lead. Ostapchuk, showing great competitive instincts, reacted by putting her season's best of 20.48 to end a superb final round.

As reported for Helsinki 2005, the Belarusian had all her results annulled for a period of two years up to a fortnight before competing in Osaka. In 2012 she was quickly stripped of the Olympic title after failing another test, then in October 2017 the newly-formed Athletics Integrity Unit reported further adverse findings in her doping control

samples at Osaka 2007 and the 2008 Beijing Olympics. Her punishment: disqualification of all results from August 26, 2007 to August 5, 2012. She had already been banned/disqualified for two years before that period, and for four years afterwards.

Vili, the reigning World and Olympic Champion, was the prohibitive favourite, and duly led the qualifiers with 19.70. Notably, all those who advanced used the traditional "O'Brien" technique. In the final, Vili got off to a slow start with 19.40, which was exceeded in the opening round by Kleinert (20.06) equaling her lifetime best, Gong and Mikhnevich. The Chinese thrower improved to a personal best of 19.89 in round two. By her third throw Vili had also been overtaken by Avdeyeva (19.48), but she then launched the shot out to 20.25. Kleinert, clearly galvanized by the home crowd, improved her best to 20.20, and Vili responded with throws of 20.16, a winning 20.44, and another 20.25. Kleinert won her third silver medal in the event, while Vili would subsequently win the World Athletics Final with 21.07, her eleventh consecutive annual improvement.

The victory lap of the medallists (and also the heptathletes) was paused at the 300m point for the men's 100m final.

Between them, Adams and (initially) Ostapchuk had won six of the 12 available medals since 2003, and had the top 11 marks of the season, so it was no surprise to find them on the podium again. Gong (19.64) and Camarena-Williams (19.63) led until the third round, when Adams (20.04), Ostapchuk (19.87) and Kolodko (a personal best of 19.78) all clicked. Adams put the gold medal beyond doubt in the next round with 20.72, as Camarena-Williams improved to 20.02. Ostapchuk went into silver medal position in the fifth with 20.05, but for reasons set out in the report of the 2007 shot put, she was ultimately stripped of that medal, her third such forfeit after 2005 & 2007.

On the last throw of the competition Adams "smashed the crap out of the shot" and it landed 21.24 away from the circle. The popular New Zealander bounded around with glee when she saw the measurement, which was a lifetime best and Commonwealth record, and equalled Lisovskaya's ancient championship record from 1987. The winner had since 2010 been coached by Jean-Pierre Egger, who was also the trainer of triple male World Champion Werner Günthör.

Adams came to Moscow with an unbeaten streak of 39, and the best five marks of the season. Her former arch rival Nadezhda Ostapchuk was absent, having failed two doping tests at the London Olympics and a further re-test of her sample from Helsinki 2005.

In the first round of the final, Carter opened with 19.92, then Adams took the lead with 20.41. The New Zealander claimed the title with her second round throw of 20.46, improving in the third to 20.88, her best of the day. Gong's second round 19.95 held the silver medal until the final round, when the ecstatic Schwanitz jumped up from fifth with a personal best 20.41. For Adams it was a fourth title in a row, making her the first woman to achieve that feat.

Gong and Schwanitz had met five times during 2015 before Beijing, with the German winning 3-2. Could Schwanitz prevent a home win on the first night of the championships? Gong opened the final with an excellent 20.30, and followed with 20.05 and 20.25. In the meantime, the German had improved from 20.00 to a winning 20.37 in round three. After five 20m throws between them in the first half of the competition, there was only one such mark in the second half – 20.10 by Schwanitz, though the German did touch the 20m with her final effort before deliberately fouling. Behind them, Carter earned her first outdoor global championship medal with 19.76 ahead of Márton's Hungarian record of 19.48. Four-time winner Valerie Adams was coming back after knee surgery and decided not to compete in Beijing.

Unlike the men, gliders were in the majority in the women's shot final. They included the winner Gong, finally a global champion after a string of minor medals at world or Olympic level. The German-based Chinese was always in front, from her 19.16 in the first round, followed by 19.35 when no-one else could reach 19m. The best of the rest to that point were Olympic medallists Márton (18.89) and Carter (18.86), then in the third Carter progressed to 19.14. Márton lost another place when Thomas-Dodd reached 18.91 in the fifth, a round which was ended with Gong's winning distance of 19.94. The Hungarian went back up into second spot with her closing 19.49. The winner's success, concluded the London biomechanics, "was her ability to generate the most extra velocity in the final element of her put". The last two champions Adams and Schwanitz were each missing due to maternity.

Gong retained her title and became the first woman to win six World Championship medals in the same field event. She was given a stiff battle by Commonwealth Champion Thomas-Dodd. The Chinese took the lead with 19.07 in round one before improving to 19.42 (round 2) then 19.55 (round 4). The Jamaican responded well with 19.36 in the third, then in the fifth landed what might have been a winning put, in the 20m region. Unfortunately for her, a red flag was raised, as it was one throw later when Gong also hit the 20m tape. Thomas-Dodd finished with a valiant 19.47 and Gong fouled again. Schwanitz won the battle for bronze, overtaking Ewen in round five with 19.17.

A major shock was the failure of Savinkova – the world record holder at 73.26 – to qualify for three further throws in the final. Just as the Soviet thrower was below her best form, so the GDR's Martina Opitz must have been inspired. Only her country's second-string thrower, she took the lead in round 2 and improved with three of her remaining throws. All of these were better than the best of the runner-up Murashova, who clinched the silver with her final throw.

Hellmann (née Opitz) became the first female athlete to retain a world title. She did so emphatically: with the first throw of the final, she set a championship record of 71.08. This she improved to 71.62 in the fourth round. The only other 70m throw of the contest was by Gansky in the third.

The GDR filled three of the first four places, with world junior record holder Wyludda in fourth spot. World senior record holder Šilhavá placed sixth, just as she had in Helsinki.

The day after Carl Lewis's long jump defeat there was another shock when Wyludda – the winner of her previous 40 contests – was beaten. Not that the German performed badly. She threw season's bests in the fourth (69.00) and fifth rounds (69.12) to establish a commanding lead. Earlier in the fifth round, the pony-tailed Khristova had improved from seventh to third with 66.96, pushing defending champion Hellmann out of the medals.

The Bulgarian really clicked in round 6. Taking two turns, she propelled the discus clearly past the 70m line. To avoid defeat, the German needed to throw further than she had for the past 15 months. She waited until after the women's high jump ceremony to take her chance, but fell short of 70m and deliberately fouled.

"I had a certain degree of confidence I could win a medal, but I didn't expect such a long throw as 71 metres," said Khristova. "Wyludda must be surprised."

Khristova served a four-year doping suspension from 1993. Sadly, she died at age 46 in 2008 from lung cancer and bronchopneumonia.

For the third successive World Championships, the qualifying round was won by Ilke Wyludda. Sadly, the German had been hampered by

injury all summer and had nothing left for the final, finishing 11th.

The ex-Romanian Costian took an early lead in the final with throws of 63.90 and 64.78. Later in the second round, Burova threw 67.40 and this proved to be the winning effort. In the third round, Min moved into second place, but was back to third in the next round when Costian improved to 65.36.

Zvereva completed the Belarus discus medal collection by adding gold to the silver and bronze taken by her compatriots in the men's contest one day earlier. The 34 year-old threw 68.64 in the first round to easily beat the 66.86 by defending champion Chernyavskaya (formerly Burova). Wyludda, the favourite, was beaten again. She stayed in third place until reaching 67.20 in the fifth round, so she did at least repeat her 1991 silver.

"I knew that I had only one chance – to throw the big one in the first round," said Zvereva. "I'm not sure I would have been the champ had I thrown my best in the second or third round."

Faumuina lived dangerously before winning New Zealand's first ever world title (or medal even). In the qualifying competition she faced a crisis after fouling her first two throws. She might have opted for a safety throw but there was no compromise as she registered a distance of 64.58. In the final the same thing happened. Two fouls left her facing extinction and she needed over 61m to survive the cut. No problem ... despite, or maybe because of, the pressure she threw 66.82, which not only ensured her three more trials but won her the title. She had come a long way since Gothenburg where she failed to reach the final, placing 28th of the 33 entrants with 54.32. Defending champion Zvereva and Olympic silver medallist Sadova were unable to improve upon their second round efforts of 65.90 and 65.14 for the other medals.

Sadova, the only thrower in the world to better 70m in 1999, will not look back on Seville with any pleasure. The 1997 bronze medallist only just scraped into the final in 12th place and eventually placed fourth. European Champion Dietzsch, who had not won a global medal since her silver in the 1986 World Junior Championships, dominated the contest. Her opener of 66.34 would have stood up as the winner had she not later improved to 67.60 and 68.14. After four rounds Sadova (64.98) was in second place but Grasu threw 65.35 in round 5 to supplant her, and a few minutes later the towering Kelesidou reached 66.05. Sadova was out of the medals.

[Sadova	65.24	66.87	66.36	68.57	67.80	67.18]

Eleven years after becoming World Junior Champion in USSR colours, Sadova apparently became senior champion for the first time in her fourth World Championship final. Olympic Champion Zvereva, set the pace with a 65.78 qualifier then 67.10 in round 2 of the final. That held first place until the penultimate throw of the fourth round, when Sadova spun her implement out to 68.57, the world's longest throw of 2001. In the fifth round, Grasu overtook Kelesidou for the bronze.

Unfortunately, the winner failed a doping test for caffeine. The Russian Federation exonerated her and the case was to be referred to the Court of Arbitration for Sport, then in December 2002 the penalty was accepted by all parties, making Sadova's the earliest disqualification of a female winner at these championships. Zvereva, at 40 years 268 days old, therefore became the oldest ever World Champion or medallist.

At 37 years 298 days, Irina Yatchenko became the oldest female World Champion apart from her compatriot Zvereva. She did so with her first throw of 67.32 which remained the longest of the day though Kelesidou came close with 67.13 in the third then 67.14 in the sixth. Greece won the other medal thanks to Vóggoli, who threw a personal best of 66.73 in the fourth round. "I liked the circle a lot," said the winner, "as I prefer the surface hard and slow." At this point, Belarus had won all of the three throws finals staged so far in Paris.

Sadova and Dietzsch had both lost just twice in 2005, with Olympic Champion Sadova favoured to win in Helsinki. Cechlová and Song led the qualifiers. The final actually began on August 9 but was abandoned after two throws because of the terrible weather and then postponed for two days. Both Faumuina (62.73) and Sadova (64.33) produced their best throws in the opening round, but it was Dietzsch who achieved the best initial throw with 64.89. Cechlová moved into third in round two with 63.00 before cementing her position in with 63.19 in the fifth.

Only Dietzsch was able to get beyond 64m after the first round, and she did so in the wet conditions with all of her throws, enabling her to pass her last round. Dietzsch was competing in her eighth championships; she won in 1999 but had otherwise not been on the podium. Her unrestrained joy in winning was reminiscent of Helena Fibingerová's shot win in 1983, as she hugged as many officials as possible.

Dietzsch (39) headed the world list with 68.06, and endorsed her position as favourite on her record ninth appearance in the championships by leading the qualifying round with 65.17. The champion from 1999 and 2005 opened up in the final with 66.61, which she followed with 66.48. Neither mark was headed on the day, though Pishchalnikova did (like Dietzsch) produce three throws over 65m. No-one else could get over 64m, and Barrios's opening throw of 63.90 held up against Grasu, who achieved her best of 63.40 in the final round. Dietzsch had first competed internationally – for the GDR – in 1986, placing second in the World Junior championships. In winning, she became the first athlete to win the women's discus three times and the second-oldest World Champion after 2001 winner Ellina Zvereva.

The following summer, Pishchalnikova was found guilty of tampering or attempting to tamper with a doping control sample back in April 2007. As detailed in the report here of the Osaka women's 1500m, she was eventually banned from that date to April 30, 2011. So her Osaka silver went to Barrios, and Grasu won her third world medal.

Between them, Dietzsch, Zvereva and Yatchenko had more than 60 years of international experience, including the previous five world titles, but none of them qualified for the final though Dietzsch did make a record-equalling 10th appearance at the World Championships.

The qualifiers were led by the Chinese duo of Ma and Song. Barrios, the Olympic and World silver medallist, was the only thrower beyond 61m in the first round with a solid 64.44. Grasu, three times a medallist since 1999, went into the lead in the second round with 65.20, with another veteran – Sadova – moving into third with 61.78. Samuels (62.71) and Glanc (62.66) then overtook the Russian, and Samuels then improved her lifetime best (of 62.95) with 64.76 and a winning 65.44. Only Barrios could react, and she came very close with her 65.31 in the final round. So she repeated her silver from Oska 2007.

The Australian became the first discus thrower to win world golds in all three age categories, having been World Youth Champion in 2005 and World Junior Champion one year later.

In 2017 it was announced that Barrios had failed a re-test of a doping control sample from the 2008 Olympic Games, where she had originally won a silver medal. That award was withdrawn and she was given a one-year ban, plus a one-year results annulment to August 17, 2009 – just two days before she performed in Berlin.

Olympic Champion Perković was almost a prohibitive favourite as the only athlete to have thrown 68 metres in 2013, which she'd done four times. The Croatian could not have got closer to that distance in Moscow, with 67.99 in round two.

The silver medal was expected to be contested by Barrios and Müller, but Robert-Michon produced a surprise. In eight global championships her best had been a sixth place in the London Olympics (or fifth after Darya Pishchalnikova's disqualification was confirmed). In Moscow, she produced three throws good enough to win the silver medal, culminating in a French record of 66.28 in the final round.

Perković had beaten Caballero 7-0 before the championships, but in Beijing the tall and relatively slender Cuban (1.75m/73kg) was at a new level. She went out to 69.28 in the first round, ending the throw in a sitting position in the circle.

The Croat was sufficiently discombobulated that she was unable to launch a serious challenge until the last round, at which point she was languishing in fourth place. Perković then finally threw 67.39 for the silver, an effort she later described with a four-letter word. One of the biggest favourites in athletics had been defeated. Müller managed to hold onto the bronze medal with 65.63, withstanding the challenge of Pérez, who reached 65.46 in the last round.

Perković led the qualifying with 69.67, a distance no other thrower had reached for two years. The former Croatian member of parliament led the field by nearly 4m after the first round, reaching 69.30 to the 65.49 of Robert-Michon. Perković emphasised her position as the best with throws of 70.31 and 70.28 to ensure her second World Championship gold.

Stevens had moved into third in the second round with 65.46, and the 2009 champion then produced a seasonal best of 66.82, backed up with 66.59. She then launched a Commonwealth record 69.64, surprising everyone, including herself, to take silver. Robert-Michon showed a cool head following that throw with her seasonal best of 66.21 for the bronze. Gold and silver went to those who sent off their discuses the quickest, Perković (24.93 m/s) and Samuels (25.60 m/s).

The podium was filled by three World Champions. The bronze went to London winner Perković, not at her best after an injury-hampered season. The 2015 champion Caballero took silver, while gold went to Diamond League Champion Perez, who had been fourth at the last two worlds. Those three were comfortably ahead of the pack.

The two Cubans traded the lead in the final, Perez starting with 68.10. That was overtaken by Caballero's round four 68.44, then Perez struck back with her winning 69.17 in the fifth. According to the unofficial launch parameters, the winning throw was released at a speed of 89.4km/h and angle of 33.2°. The fastest throw was the 90km/h achieved by Perković with her opening (and best) effort.

The women had to contend with the commotion surrounding the men's high jump, where the largest crowd of the week were so wound up by the exploits of the home favourite Mutaz Essa Barshim.

but worked her way through to a final round 72.56, the longest ever non-winning mark. There was a huge gap after them but it was encouraging for the small nations that the bronze should go to a native of American Samoa, the US-based Misipeka.

Last of the 21 competitors with her only valid throw of 50.38 was 16 year-old Skolimowska ... winner of the Olympic title a year later with 71.16!

Kuzenkova was the favourite and started well with 70.43 in qualifying then 70.61 in the first round of the final. She followed up with a 69.94, but she had no response when Moreno flung her hammer out to 70.65 in third round. In the meantime, Eagles had filled third place at 68.87.

Observers raved about Moreno's technique. The 20 year-old Cuban prepared before each throw by making four circles with her right index finger. In rounds 3, 4 and 5 Kuzenkova fouled and there were no changes in the medal positions. After her and the competition's final throw of 66.95, Moreno rushed toward the track to celebrate but was restrained from doing so as the women's 10,000m had reached its closing stages.

As with the women's pole vault in Seville, this new event produced a splendid winning performance. No world record here but Melinte came close to her pending mark of 75.97 with a series which climaxed with 75.20, at the time the third longest ever throw. She thought that, but for the heat, she might have thrown one or two metres further. Kuzenkova, the event's previous trail blazer, smashed her first effort into the netting

Moreno became the only athlete to retain a throws title from Edmonton, though she needed three attempts just to qualify for the final. Once there, the 22 year-old Cuban took an immediate lead at 71.02, then went on to dominate the contest with throws of 73.33 and 72.52. Kuzenkova scored a third successive silver. The crowd were greatly relieved that Montebun moved from fifth to third in round four. Less satisfied was Gu, who became the first woman to throw 70m and not win a medal.

The medallists from Paris – Moreno, Kuzenkova and Montebun – were again favoured to win the medals, though new world record holder Lysenko was clearly a contender. These four were the leading qualifiers.

The opening three rounds of the final were low-key, with Moreno (70.88) leading from Kuzenkova (70.70) and Lysenko (70.30). Montebun – in sixth place at halfway – warmed things up by taking the lead with 71.41 in round four. In the next round the tall, athletic (1.86/81kg) Lysenko reached 72.46, to be overtaken immediately by Kuzenkova (74.03) and Moreno (73.08). The Olympic Champion increased her lead over the double World Champion, throwing 75.10 in the last round, her best for five years, while Moreno responded with 73.04.

Almost eight years later, in March 2013, the winner was exposed as a drug cheat when it was announced that a re-analysis of

Kuzenkova's Helsinki doping control sample – using the most up-to-date analytical techniques – had revealed an adverse finding. Besides being suspended in 2013-2015, all her results for two years from August 2005 were disqualified, starting with those in Helsinki. Moreno therefore became a triple champion, and ultimately one of the all-time greats across all individual women's events at the World Championships: three golds, one silver and two fourths.

Seventy-seven metres had been beaten by Tatyana Lysenko four times by the end of June, but she was then suspended for a doping offence. This left Moreno and Skolimowska, both finalists on four previous occasions, as the fancied athletes. Surprisingly, the qualifying was led by Brkljačić, who reached 74.69, but she faded in the final, reaching only 68.16 for 11th place.

Moreno opened the final with 72.87, but was overtaken by Skolimowska's 73.75. Heidler then moved into the lead with 74.76, and Zhang moved past Moreno with 73.11. The Cuban eventually got going with 74.33 in round four, and Zhang reached 74.21 then 74.39 in the 5th round to take back second place. Moreno then entered the circle for the final time, proceeded with her pre-throw ritual, including the rotation of a finger in front of her face to help visualize the throw about to occur, and launched the ball and chain out to ... 74.74, missing gold by just 2cm. The event saw the first occasion of nine throwers exceeding 70m in any competition, and more than doubled the number that had managed that distance ever in the World Championships.

Heidler and Włodarczyk led the qualifiers, and similarly led the final with 75.10 and 74.86 respectively after the first round. Włodarczyk then hurled the implement 77.96 for a new world record. So excited was the Pole, that in celebrating her throw she damaged her ankle so badly that she was unable to throw further, and would subsequently require surgery. Showing great competitive fire, Heidler improved in round two to 75.38, then 75.73, 76.44 (fifth round) and finally a national record 77.12. Klaas also set a personal best with 74.23, and occupied third place until Hrašnová's fifth round 74.79. No competition had seen as many as 10 over 70m before – here 12 exceeded that limit in the qualifying, with 11 doing so in the final.

Heidler had been the only woman to have set a world record in a world championship event in 2011, with her 79.42 in May. Three other marks ahead of her nearest rival made her a big favourite. Zhang was the early leader with 75.03, until Lysenko produced a seasonal best of 76.80 to start her campaign. This was followed by efforts of 77.09 and 77.13, all three efforts being championship records. Heidler was stuck in bronze medal position with efforts of 73.96 and 74.70, before reaching 76.06 in the fifth, but the day belonged to the tall (1.80m) Lysenko. "I thought 77 metres would for sure be enough for a medal," she reflected, "but not enough for the win."

The qualifying round produced one of the shocks of the championship when world record holder Heidler, a medallist at the three previous championships, was eliminated. Olympic Champion Lysenko led the final from the start until the third round when Włodarczyk threw 77.79. Lysenko reacted in the next round with a Russian record 78.80, the second-best ever. On the very next throw, Włodarczyk showed her competitive ability with 78.46, a national record and good for fourth on the all-time list.

Of all the field events in Moscow, this one, with performances so close to the world record, appeared to be the most qualitative. Then, one by one, the four Russians finalists were each disqualified for doping offences. Bulgakova's was in Moscow. Khanafeyeva's, Lysenko's and Kondratyeva's were all historic. Like Marion Jones and Nadezhda Ostapchuk, Lysenko was stripped of both World Championship and Olympic titles.

Re-analysis of her samples from London 2012 resulted in a positive test for the prohibited substance dehydrochloromethyltestosterone (turinabol). The IOC withdrew her 2012 Olympic gold in 2016. When her case was fully processed by the AIU in March 2019, she was given an eight-year ban, having previously failed a separate test in 2007.

The big beneficiary was Włodarczyk. She suddenly became a quadruple World Champion (the order of her victories being 2009, 2015, 2017 & 2013) as well as a double Olympic Champion (2016 then 2012). "On one side I'm happy," remarked the Pole, who received her 2013 gold at the Doha World Championships in 2019. "On the other I feel betrayed once again by Tatyana."

At the beginning of August Włodarczyk had become the first woman to throw over 80m with 81.08, and she was strongly favoured to regain the title she at that point only won in 2009. The Pole led after the first round with a safe 74.40, and established her class with successive throws of 78.52, 80.27, a winning 80.85, and 79.31. Both 80m efforts were championship records and all those throws were well beyond the best of silver medallist Zhang, who reached a seasonal best of 76.33. The 2007 champion Heidler was regarded as a likely medallist, but had a poor day, with the bronze being taken by Tavernier's 74.02, just ahead of Hitchon's national record 73.86. Afterwards Włodarczyk commented "I must admit I feel a bit disappointed, because I really hoped for the world record here."

A throw of 82.87 the week before London suggested that Włodarczyk might well be in world record form, but she then suffered a finger injury before the competition, and painful stomach cramps during the event. After three rounds, the Olympic Champion was only in seventh place with 71.94, but a fourth round 77.19 took her into the lead, and her 77.90 in the fifth was enough for her to retain her title. Wang was a solid runner-up, opening with 74.31, just behind Kopron's bronze medal throw of 74.76. Four-time medallist Zhang missed the podium by 23cm and finished in the top five for the seventh time.

Włodarczyk achieved the highest release velocity of 28.26 m/s. That was quicker than all the men's hammer throwers, but then their implement weighs 7.26kg compared with the women's 4kg.

The overall standard was higher than ever. Three women threw 70m+ and did not reach the final, including London medallist Kopron. That was despite the absence of triple champion Anita Włodarczyk, who cut her season short to undergo knee surgery.

A new champion was guaranteed, and it was Price who fulfilled the promise of her world leading mark (of 78.24) at the US Championships. The gold and silver positions were set with the second and third throws of the final. Price produced a 76.87, followed by Fiodorow's 76.35. No-one else would improve on those marks except for the American, who propelled an effort of 77.54 in round three to become the USA's first female world throws champion. Wang edged Petrivskaya for the bronze in round five, her third world medal. The only real surprise of the final was Berry having no valid throw, when a bronze medal might have been expected for the third longest thrower of the year. Experimental measurements revealed that the leading women were releasing their implements at speeds in excess of 100km/h.

The capacity crowd of 54,700 had high expectations of the Finnish world record holder Lillak, who led the qualifying round at 69.16. Whitbread, meanwhile, had only just recovered from tonsillitis and scraped into the final in 12th place.

One brilliant throw from each of these two women provided a final of high drama. The first of these came in the opening round, when Whitbread went near to her personal best with 69.14. Lillak threw 67.34, while another Briton, Sanderson, went into third at 64.76.

Three full rounds followed with none of the principals improving. It became increasingly clear that Whitbread's opening effort was not only an excellent throw in the conditions, but that it might hold up for victory. In the fifth round, Verouli replaced Sanderson in third place. Lillak improved marginally to 67.46 so had just one more chance.

Whitbread passed her final throw with a sore back and could barely watch as Lillak prepared for her final effort. The crowd was deafening as the spear left her hand, then went berserk when it landed at 70.82. Sanderson was still to throw but Lillak sprinted round a victory half-lap. The Briton managed only 59.74 and Finland's first gold was confirmed. "Not technically perfect," said Lillak of her winning throw, "but there was enough force behind it to go over 70m."

In Helsinki, Whitbread led for most of the contest before being overtaken in the final round. Four years later, the tables were turned when Whitbread was the one chasing the 71.76 second-round throw of Felke. The Briton, whose participation in the championships had been in doubt because of a shoulder injury, came close with 71.34 in the third round. Whitbread finally got it right in the fourth round with the third best throw of all-time, 73.16. Felke, the world record holder, was next to throw and fouled. In the fifth, Whitbread improved again to 76.64.

Eight days after winning the first of the Tokyo throws, China unexpectedly won the last. Xu Demei chose the best possible time to throw a personal best of 68.78: the first round of the final. Meier-Felke – the Rome silver medallist – threatened with 68.68 in the second round, but these two proved to be the only 68m+ efforts of the day.

The bronze medal also went to Germany but there was huge disappointment for the other German Forkel. She won the qualifying round with 68.14 then could only manage 57.90 in the final.

She had failed several times before at major championships, but in Stuttgart Hattestad did everything right. She led the qualifiers and with the first throw of the final went into a big lead with 69.18.

The Norwegian's big rival, Natalya Shikolenko, followed up her 65.64 opener with three fouls. This allowed Forkel to claim the silver. Like Hattestad, the German therefore made amends for a miserable performance at the previous World Championships.

Natalya Shikolenko held on for the bronze one place ahead of her younger sister, Tatyana, who set a personal best in the final round.

Defending champion Trine Hattestad was throwing well in 1995 but by the time of Gothenburg was five months pregnant and did not compete for obvious reasons. This left Shikolenko as the favourite to add gold to her 1993 bronze, and she did just that. She had the best qualifying effort (65.46) and took the lead in the final with her first throw of 66.48. No-one could approach that, though the Belarus thrower did go better with 67.56 in the final round. The woman who was beaten in the last round at the Barcelona Olympics then waited anxiously for the three remaining finalists to close their accounts.

Stone, a London-born Australian policewoman, created a stir by leading the qualifiers with a personal best of 67.72 and proved that was no fluke by pressuring the favourite, Hattestad, throughout the final. The Norwegian, champion in 1993 and pregnant at the time of the 1995 Championships, opened strongly with 68.78 and that proved to be the winner but Stone drew uncomfortably close in the second round with 68.16 and her last two throws landed at 68.64 and 68.60. The bronze medallist Damaske excelled also, throwing a personal best of 67.12 in the final round, but Olympic Champion Rantanen suffered an off-day in tenth place. "I was given strength by the knowledge that my two sons were watching from the stands," said Hattestad.

In a year which caused so much grief to Albanians there was a result from Seville which might have brought those people some pride and pleasure. Manjani no longer competed for Albania; now married to Greek weightlifter George Tzelilis she became a Greek citizen in 1997, but she made history by becoming the first Albanian-born athlete ever to win a world athletics title. Title holder Hattestad was delighted to take the lead in round 2 with 66.06 but later in the round Tzelili went ahead with 66.33 and with her next throw she improved to a Greek record with the new implement of 67.09. Tatyana Shikolenko later produced a Russian record of 66.37 to push Hattestad down to third; her elder sister Natalya won this title for Belarus in 1995. European Champion Damaske was unable through injury to throw in the qualifying round.

The previous July, Menéndez had become the first Cuban woman to set a world record with a throw of 71.54. She didn't need to throw that far in Edmonton, but still won easily. The 21 year-old did the damage in the first three rounds with efforts of 66.56, 69.42 and 69.53.

Tzelili defended her title with honour, lying second throughout and achieving her best of 65.78 in round 5. Another Cuban, Bisset, was in third place throughout the contest ahead of Tomečková who could not reproduce her 65.71 qualifier when it mattered.

The 1999 winner Manjani (now divorced from Giorgos Tzelilis) again demonstrated her ability to peak for major championships. Before Paris her season's best was just 63.13. Her opening four throws in the final were better than that or anything else the opposition could produce. Her fourth effort of 66.52 was a 2003 world best, but it was also the shortest winning throw in world championships history. The silver medallist Shikolenko was another to repeat her placing from 1999.

At the ripe old age of 25, Menéndez was competing in her fifth World championships, aiming to regain the title she had won in her world record year of 2001. After throwing 65.77 in the qualifying round, trailing the personal best 66.52 of veteran Nerius, Menéndez set up for her first throw drawn at the end of the opening round. Again trailing Nerius, who led with 65.96, the powerful (1.78/80kg) Cuban launched a throw which had the knowledgeable Finnish crowd buzzing with expectation before the spear landed. It was measured at 71.70, a new

world record; normally such a throw kills off the opposition, but on this occasion it engendered a magnificent reaction. Obergföll, with a lifetime best of 64.59 hit a perfect throw, and was rewarded with a European record 70.03. She later said "I cannot explain what happened today." Nerius's throw held up for the bronze medal, while Helsinki held its reputation as the spiritual home of javelin throwing as the top five throwers came away with lifetime bests.

In the absence of Helsinki winner Menéndez (injured) Obergföll was a strong favourite, having produced the top seven throws of 2007. The German was less than impressive in the qualifying, managing 60.77, while the qualifiers were led by the Czech duo of Brejchová and Špotáková. The latter was just warming up, as she opened in the final with a Czech record of 66.40. Obergföll reacted well, finishing off round one with 64.01, before improving to 65.26 in the next round. At this point no-one else had managed to reach 62m, which Brejchová rectified with her third round 63.73, inspired perhaps by Špotáková's further improvement to 67.07. Nerius, in her sixth final, produced her first 60m throw of the competition in round four – 64.42 – which would prove enough to secure her third world championship medal. Her teammate Obergföll saved her best till last, coming within a metre of Špotáková with 66.46. The Czech was a worthy winner, and averaged an excellent 64.37 with her six throws.

No javelin thrower in World Championship history had ever produced a qualifying round throw beyond the winning distance in the final by another thrower, but that unenviable feat was managed in Berlin by Abakumova who qualified with 68.92, the best throw of 2009.

The final began with Stoian improving her best by 2½m with 64.51, and then Nerius – at her eighth World Championship – produced the second best throw of her career, 67.30. Olympic Champion Špotáková immediately reacted with 64.94 and improved in the third round to 66.42, but could get no closer, while Abakumova overtook Stoian for bronze in round three before reaching 66.06 in the sixth. Nerius had won bronze in the three previous championships and later said she would not reconsider her decision to retire that September. Why? “Just because everything that will come now can only be less good.”

After a lengthy process, it was finally confirmed in September 2018 that Abakumova had failed retests of doping samples she gave at the Beijing Olympics in 2008 and the 2011 World Championships. As well as a four-year ban, a separate four years' worth of her results were deleted. Stoian became the rightful bronze medallist.

Obergföll, who led the qualifiers with 68.76, and Špotáková were the athletes most highly regarded. The Czech opened with 68.80 to confirm the opinion of the experts, and then the fireworks started. Abakumova followed Špotáková's second round 67.90 with an arrow of a throw which landed at 71.25. Wonderfully consistent, the Czech star then threw 68.64 and 67.12. Behind the big two Viljoen's 65.20 in round two was overtaken by Obergföll's fourth of 65.24. In a wonderful sequence of throws in the fifth, Viljoen threw an African record 68.38, Špotáková went out to 71.58, and then Abakumova again improved her national record with 71.99. After the competition, the effervescent Russian happily showed the strapping covering an injury on her right heel which had threatened to prevent her from competing.

“It's a mystery to me why the javelin went so far and floated so high,” she explained. “The air seemed to catch it and it went on and on.”

For years, this was regarded as the greatest ever women's javelin contest. Then in 2016, the IOC announced that Abakumova was to be stripped of the Olympic silver medal she won in 2008, after a re-test of her doping sample from those Games found traces of the prohibited substance turinabol. Two years later, the AIU confirmed that judgement as well as reporting that she had failed a further re-test of her Daegu sample. All her 61 results between the Augusts of 2008 and 2012 were disqualified, and so Špotáková gained another world title.

On six occasions between 2005 and 2012, Obergföll won medals at Olympic, World and European Championships, but never the gold. The 31 year-old German was co-favourite with reigning champion Abakumova. The Russian led after the first round of the final with 65.09. In the second round, Mickle improved her personal best from her qualifying mark of 65.73 to 66.25. Obergföll, throwing last then reached 69.05 to win the gold medal. None of the top eight improved

in the second half, except for Mickel who reached 66.60 with the last throw. "Finally a champion," Obergföll said afterwards "in the year where I didn't really expect it, it finally happened", and a month later she married her coach, the 1995 and 2003 bronze medallist, Boris Henry. The couple agreed that he would take her name if she won in Moscow, so they became Herr and Frau Obergföll.

Abakumova's husband Dmitriy Tarabin also became a world javelin bronze medallist, one day later in Moscow.

Historically, the javelin has been the throwing event with the most uncertainty, and this was the case in Beijing. Špotáková, the world record holder and double Olympic Champion (though never a world champion), threw 65.02 to qualify, but managed only 60.08 in the final to place ninth.

Lu led the competition until midway through the third round with 64.72, ahead of Obergföll's 64.61 and Li's opener of 64.10. Molitor then edged temporarily into the lead with 64.74. The powerfully-built Viljoen briefly took over in round four with 65.79, and Lu responded well in the penultimate round with an Asian record 66.13. Could Molitor break Chinese hearts with the last throw of the contest? Yes, she threw a lifetime best of 67.69 to take gold. In all, the lead changed seven times during the competition.

"I cannot really believe this," said the new champion. "After my fifth throw, I thought: 'Maybe I can still improve a little bit.' I dreamed about that and now I have this new PB and world lead! Perfect!"

The longest throw of the competition came in the qualifying round, when Lu's opening throw reached 67.59, a new Asian record. European Champion Khaladovich led after the first round in the final, with 63.04, and although she improved her lead in the second round to 64.05, she had already slid out of the medal positions by the end of that round. The best in that stanza was Špotáková, who produced the competition winner of 66.76. Olympic Champion Kolak (64.95), and 20 year-old Tuğsuz (64.52) also produced their competition bests in that round. Lu clicked again with 65.26 to take the bronze medal behind teammate Li who set a personal best of 66.25 in the third.

Špotáková became the most successful female javelin thrower in World Championship history, winning her second title – a decade after her first – and her fourth medal. That record has since been further improved with her upgrade to a third gold, in 2011, replacing the disgraced Mariya Abakumova.

At Beijing 2015, Lu was overtaken for gold in the last round. This time her compatriot Liu suffered the same fate. Lu won the qualifying round with 67.27 from Hussong's 63.50. Halfway through the final the same two were on top again, though this time there was only a centimetre between the Chinese woman (65.06) and the European Champion (65.05). Liu was third and defending champion Špotáková was eliminated at halfway.

Little happened until the middle of the fifth round when Winger climbed to fourth with 63.23, only to be overtaken by Barber's 63.65 on the next throw. Liu then moved into the lead with 65.88, and Lu replied with 65.49. So it was a Chinese 1-2 as the final round started. Then Barber, having adjusted her run-up, moved from fourth to first with 66.56. The remaining three women all fell short of their best. "Mike [Barber's coach and husband] told me to take my run-up back a bit little going into that fifth round," explained the winner. "That really allowed me to settle into my run and get my feet down."

World record holder Ramona Neubert had never been beaten in a heptathlon. She not only maintained that record but led her country to a sweep of the medals.

Paetz, who had pushed Neubert in the previous year's European Championships, took an initial lead with a 13.11 100m hurdles. She was overtaken by Britain's Livermore, who high jumped 1.92 but was to fall back thereafter and drop out after three fouls in the javelin throw. Neubert was as low as seventh after the high jump, but her 23.27 200m not only gave her an overnight lead of 43 points, but also put her 29 points ahead of world record schedule.

The second day saw Neubert lose contact with her world record pace but stay comfortably ahead of Paetz. The third GDR athlete, Vater, consolidated her hold on the bronze medal with a win in the final event.

None of the Rome world champions was more dominant than Joyner-Kersey in the Heptathlon. The world record holder started in style with a fast win in the 100m hurdles. After personal bests in the high jump and shot put, she was 121 points ahead of world record schedule. An excellent 200m of 22.95 – just a tenth slower than her best – left her with a world best first day score of 4256. Second at this point was Nikitina on 3918.

JK maintained a brilliant standard with a 7.14 long jump, breaking the championship record for that event. The heat took its toll in the final two events. The American was below her best in the javelin and clocked only 2:16.29 in the final event to miss a world record by 2.2 seconds. She nonetheless won from Nikitina by 564 points. The Russian had secured the silver with a personal best in the javelin.

There was more good news for the USA as the bronze went to 35 year-old Jane Frederick, a veteran of the 1972 Olympic Games.

Joyner-Kersey showed no reaction to her ankle twist in the previous night's long jump final when she won her 100m hurdles heat. She performed well in the high jump and shot, and was just 11 points below her world record schedule at the start of the 200m before disaster struck. At the crown of the bend the American dramatically pulled up with a hamstring injury. Her husband and coach Bobby later concluded that this had been triggered by the sore ankle.

The overnight leader was Zhu, but she was soon overtaken when Braun long jumped a windy 6.67 on the second day. The German went further ahead of her immediate rivals with a fair javelin throw and had a comfortable 245-point margin before the final event. The 800m was won in spectacular fashion by Belova (née Nikitina), who improved four places and snatched the bronze medal.

Though not nearly as dominant as in her previous Olympic or World triumphs, Joyner-Kersey claimed her fourth individual world championship gold, the most ever by a woman.

The American had a good start in the hurdles but lost ground by high jumping only 1.81. Her rival, defending champion Braun, won the event at 1.90 and went into the lead. The German went further ahead after the shot. Joyner-Kersey then ran a strong 200m to take a narrow lead from Buraga and Braun after the first day.

Despite asthma attacks, the world record holder kept her momentum next morning with a 7.04 long jump. Braun managed 6.54 then was controversially given a red flag for a jump of a similar distance. A video replay of the jump appeared to show the German's foot plant safely behind the plasticine.

A fine javelin throw by the German left her with a seven-point advantage at the start of the 800m. This represented about half a second. In an exciting race, Braun managed to stay near to Joyner-Kersey until the last 300m, when the American sprinted clear.

"It was her greatest victory ever," commented Joyner-Kersey's husband and coach Bobby. "To come out of that tunnel, seven points behind, and win was one of the greatest moments of her career."

The build-up to this event centred around a fascinating clash between defending champion Jackie Joyner-Kersey and Heike Drechsler, who had the world's highest heptathlon score in 1994. Neither finished the event. JJK withdrew after her moderate showing in the long jump final and Drechsler pulled out after the shot put because of a worsening spike wound she sustained in the high jump.

That event also saw the end of the bid of the 1991 champion Braun, who injured her hand when it hit an upright while she was jumping.

The high jump, by contrast, was a good event for Shouaa, who set a national record of 1.86 and improved from 24th to 5th place as a result. The Syrian, who led the 1995 world rankings after winning at the important Götzis meeting, improved further to second place overnight, 91 points behind Moskalets.

The Russian fought back with a brilliant showing in the the following day's long jump. After a foul and 6.04, she spanned 6.70 to increase her lead. The javelin, however, changed everything because the Syrian threw almost 14m further than Moskalets and so gained a lead of 48

points. Moskalets tried to cancel this advantage in their 800m heat, but Shouaa covered her break and strode past to win the race.

This was Syria's first world medal. The country's previous best showing in these championships was 24th by Shouaa herself in the 1991 heptathlon; she failed to finish in 1993.

With the incomparable JJK confining herself to the long jump and Shouaa unable to defend because of a severe back injury, the 1991 champion Braun – contesting her 50th heptathlon – seized the opportunity of one last major title at the age of 32. The woman destined to succeed her as European champion, Lewis, was held at bay throughout. Braun opened with a snappy 13.16 to win the hurdles and followed up with a season's best high jump, a personal best shot put and a moderate 200m to lead overnight with 4009 to 3938 by Sazanovich, 3919 by Nazarovienė and 3888 by Lewis.

Lewis moved into second place after the long jump and made further inroads in the javelin, the six-event scores being 5879 for Braun and 5797 for Lewis. The Briton would have had to finish some six seconds clear of Braun in the 800m to snatch the title, which was not a realistic target. In fact Braun overtook her in the last few strides to win by 85 points with 6739. Nazarovienė maintained third place throughout the second day.

It was a shock to some that immediately after setting a French long jump record of 7.01 the former Sierra Leone athlete Barber (who had achieved six personal bests to place fourth in the 1995 World Championships heptathlon) opted to concentrate on the all-round test in Seville, but clearly she knew what she was doing. Except for the shot, she had no weaknesses and her first two events produced sensational personal bests: 12.89 hurdles into a slight wind and a 6cm improvement in the high jump to 1.93. She opened up a 185-point lead over Lewis who had a disastrous hurdles but recovered well with her highest ever jump of 1.87. However, the shot brought a dramatic turn-about for while Barber managed only 12.37 Lewis set a lifetime best of 16.12 to give her a 65-point margin. Barber, much faster over 200m, ended the day just one point clear, 3994-3993, with defending champion Braun on 3845 and Shouaa – contesting her first heptathlon since winning the 1996 Olympic title – on 3808.

Barber naturally piled up the points in the long jump (6.86) while Lewis was in big trouble until a final effort of 6.64. At first the jump was ruled a foul, but an appeal was eventually successful and Lewis was only 73 points behind. A good javelin throw would have regained the lead for Lewis but she managed only 47.44 to Barber's 49.88 and the lead increased to 120 points. Following the 800m Barber ended up 137 clear with a French record of 6861 and 7th place on the world all-time list. Lewis missed her Commonwealth record of 6736 by just 12 points. Far behind, Shouaa snatched the bronze from Braun by a 3-point margin.

Heptathlon fans endured some disappointment in Edmonton, first with the scratching of Olympic Champion Denise Lewis then with the failure to finish of reigning World Champion Barber. Lewis withdrew on the eve of the event with a stomach disorder. Barber had a dream start to the contest with a 12.78 hurdles, one of the quickest heptathlon times ever. She followed up with a good 1.88 high jump and then, disaster. The Frenchwoman, now coached by Bobby Kersee, fouled three times in the shot put. Her final attempt went close to the 14m line, but she overbalanced and touched the ground in front of the ring with her hand.

The event then developed into a duel between Sazanovich and Prokhorova, who had improved her high jump best by 5cm. Sazanovich's 15.90 shot made her the post-Barber leader. The wind gauge malfunction on August 4 meant that none of heptathlon scores could count as records because there was no wind reading on the 200m races. However, Burrell's 22.92 moved her up from 10th to fourth on the first day behind Sazanovich, Prokhorova and Roshchupkina.

Prokhorova closed on the leader with a 6.61 long jump, and Burrell moved into third place with her personal best of 6.45. In the javelin Sazanovich threw a personal best of 46.72, but all her advantage vanished when Prokhorova produced successive pbs of 47.12, 50.57 and 50.73. As the Russian was a strong 800m runner and Sazanovich was not, Prokhorova could afford to stroll around the 800m in 2:11.53 to guarantee the gold. For the bronze, Burrell needed to stay near to Roshchupkina. She finished ahead of the Russian and so the medal order was clear before the final scores were confirmed.

The charismatic Klüft delighted everyone even though she was to deny France a gold medal in Paris. The Frenchwoman won the 100m hurdles from the Swede 13.05 to 13.18. That time was the first of five personal bests by Klüft. The next came with a spectacular high jump of 1.94. The 20 year-old Swede then went very near to 1.95 and was now 19 points ahead of Barber who herself jumped an excellent 1.91.

In the shot Klüft set an outdoor pb (14.19) while Barber did enough to remain in second spot. The event winner was Sazanovich, who moved up from eighth to third. This top three would remain the same for the rest of the contest. For the 200m, Klüft was ideally drawn inside Barber and she smashed her pb with 22.98. She ended the day on 4143, the second best ever first day score. Barber was 204 points adrift.

There was drama in the long jump because while Barber opened with 6.61, Klüft fouled both her first two jumps, each at around 6.80. Another foul and the Swede would put herself out of the contest. Happily for her she spanned 6.68 despite taking off about 20cm behind the foul line. Klüft's javelin of 49.90 was displayed as a personal best but she had actually thrown 50.24 one month earlier. However, she gained further ground on Barber. The Swede needed to run 2:12.21 for 7000 points; she managed 2:12.12 for 7001 and third on the world all-time list. Uniquely, she became the reigning World, World Indoor and World Junior Champion.

Olympic and World Champion Klüft was suffering an ankle injury, while her principle rival Barber was, for once, injury-free. Barber took an expected lead in the opening event, scoring 1133 with her 12.94 into a slight wind (-0.4) while Klüft ran 13.19 (1096). Barber, an excellent high jumper, cleared 1.91, while Klüft, a 1.94 jumper, was restricted to 1.82.

The Swede reacted by throwing a lifetime best in the shot with 15.02, while Barber managed 13.20, which reduced the deficit from 153 points to 32. Skujytė, the biggest competitor (1.88/75kg), led the shot with an excellent 16.61. Curiously Barber and Klüft were seeded in separate races in the 200m, with Barber running 24.01 (-1.0) while Klüft had to deal with a 2.5 headwind when clocking 23.70. Barber now led by two points with 3973, with Sotherton in third after a good 23.94 in the 200m. In the long jump Barber leapt an excellent 6.75, but Klüft reached 6.87. Barber fought back in the javelin, overtaking Klüft's 47.20 with her last throw of 48.24 to leave the margin at just 18 points. Simpson, the smallest competitor at 1.62/53kg threw a stunning Ghanaian record of 56.36 to move from 10th to third.

Barber led Klüft in the 800m until the last 100m, when the Swede got free to edge her 2:08.89 to 2:11.94 and by 63 points in total, with Simpson holding off Skujytė and Sotherton for third. A French protest at Klüft's first round long jump, which certainly looked to be over the board, was denied, but Klüft's second best jump of 6.75, worth 40 points less, would still have got her home the winner. Barber in her seventh world heptathlon appearance won her third medal, with the top two repeating the same positions from Paris and Klüft producing a championship best day two score of 2916.

With 18 consecutive wins in the event, Klüft was a consensus choice with the “experts” to win the world title. Though behind Ennis after the first event, she equalled her best of 13.15, and she set a personal and World Championship heptathlon high jump best of 1.95. Her first day score of 4162 was almost 150 points ahead of Blonska (4014), with Sotherton (3989) just ahead of Ennis (3942).

Klüft reached a fine 6.85 in the long jump, losing 10 points to Blonska's 6.88, and a 47.98 javelin saw her with more than 6100 points with one event to go. A solid 2:12.58 enabled her to break the European record of 7007, which had stood since 1989, by 25 points. Behind her Blonska was a clear second with 6832, while Sotherton, who needed to beat Skujytė by three seconds to win the bronze, did so by 12 seconds, and held off teammate Ennis by 41 points with 6510. Klüft's lifetime best gave her an unprecedented third consecutive world title, at age 24.

Ennis, world leader with 6587, quickly put her stamp on the competition with a run of 12.93 in the hurdles, to take a lead of 76 points over Djimou's 13.44. This was the closest that anyone would get to the 24 year-old Briton. Despite measuring only 1.64, Ennis won the high jump, clearing 1.92. Olympic Champion Dobrynska won the shot with 15.82 to move into second spot (5932), as Ennis produced her one personal best of the competition – 14.14 – to keep the lead at 138. Ennis was again best in the 200 with 23.25, and led Dobrynska overnight by 307 points, with Oeser (3814) leading a cast of five within 60 points of the Ukrainian.

Chudzik had the best long jump with 6.55, as Oeser (6.42) and Dobrynska (6.41) both jumped further than Ennis (6.29). Chudzik moved into second (5628) with a javelin throw of 48.72, 37 points ahead of Oeser, while Ennis's 43.54 kept her 171 points ahead. Oeser pleased the crowd by beating Chudzik 2:14.34 to 2:18.58, overtaking the Pole for the silver medal with a personal best 6493, while Ennis beat them both with 2:12.22 to win by 238 points in a lifetime best of 6731.

The rankings prior to Daegu were headed by World and European champion Ennis with 6790, but Chernova was close behind with 6773. The Briton had run 12.79 for the 100m hurdles three weeks earlier, so 12.94 by her in Daegu was a slight disappointment. The leader after the hurdles, Fountain, followed her 12.93 with 1.89 to win her and the second event. Ennis and Chernova managed 1.86 and 1.83 respectively. After a personal best 14.67 in the shot, Ennis moved into the lead, then consolidated her position with a win in the 200m. She finished the day with 4078 points, but that was "only" 151 ahead of Chernova who was able to eat up that advantage in the javelin alone.

The tall (1.89m) Russian pulled back only 13 points in the long jump, but then produced a seasonal best 52.95 in the javelin, while Ennis had a poor 39.95 (after a warm-up throw of 45m). Chernova was suddenly 133 points ahead, which represented an unbreachable gap of nine seconds in the 800m. Ennis ran from the front in the last event, but ended up just 0.23 ahead of the Russian, so Chernova won by 129 points. The Russian's mother Lyudmila Chernova (née Zenina) won a squad gold medal at 4x400m in the 1980 Olympics.

In February 2015, World Athletics revealed that Chernova tested positive as a result of a re-analysis of her sample collected at Berlin 2009, where she placed eighth. The Russian Anti-Doping Agency banned her for two years and annulled her Berlin result and some others, but not her performance from Daegu 2011. World Athletics appealed the "selective" nature of that punishment and in November 2016, the Court of Arbitration for Sport ruled that all results achieved by Chernova between August 15, 2011 and July 22, 2013 were to be annulled. That decision also came under appeal but was upheld, and compounded when abnormalities were found in Chernova's Athlete Biological Passport. That was in July 2017. In the meantime, the IOC reported that "re-analysis of Chernova's samples from Beijing 2008 resulted in a positive test for the prohibited substance dehydrochloromethyltestosterone (turinabol)." The bronze medal she won at those Games was withdrawn.

The ultimate consequence of Chernova's Daegu punishment was that Ennis, now Mrs Ennis-Hill, retired, and expecting a second child, received a World Championships gold medal in a special ceremony at the 2017 World Championships in London.

Thiesen-Eaton – the new wife of world decathlon record holder Ashton Eaton – led after the first event ahead of Melnychenko and Schippers. Melnychenko went into first place after the high jump, though the star of that event was Belgian Thiam who leapt 1.92 to rise from 28th to third. The Ukrainian led by 75 points overnight with 3912. This was despite losing 102 points to Schippers in the 200m with 23.87 as compared to the Dutchwoman's superb 22.84, which put her second.

On day two, Rath climbed from seventh to fourth with her 6.67 long jump, while Melnychenko increased her lead to 120 points, jumping 6.49 ahead of Schippers 6.35. Theisen-Eaton's javelin mark of 45.64 gained 73 points on Melnychenko, leaving the Canadian 68 behind but safely ahead of Schippers.

Theisen-Eaton needed to beat Melnychenko by about five seconds in the 800m to take the gold, but the Ukrainian stayed within a second as both set personal bests to confirm their gold and silver. Further up the field in the same heat Rath won in 2:06.43 which would have got her bronze, had Schippers not slashed her best for the distance from 2:15.52 to 2:08.62.

Absent was reigning Champion Tatyana Chernova, who in July 2013 had won the World Student Games with a world-leading score of 6623 before apparently suffering a knee injury while competing in the individual 100m hurdles at the Russian Championships.

Returning from maternity, the former champion Ennis-Hill showed her competitive spirit on the first day, edging world leader Theisen-Eaton in every event. Her biggest rival appeared to be her compatriot Johnson-Thompson who went from ninth to second with her win in the 200m. Overnight, the leading standings were Ennis-Hill (4005), Johnson-Thompson (3925), Visser (3871) and Theisen-Eaton (3865).

Two of those contenders fell away in the long jump. Visser managed only 6.14, while Johnson-Thompson suffered the calamity of three no-jumps. With a best of 6.93 she had been quite capable of overtaking Ennis-Hill but in Beijing was successively over the board by margins of 5.1cm, 6.2cm and (for a jump estimated to be 6.82), a galling 1mm!

Ennis-Hill managed respectable efforts in both the long jump and javelin to hold an impregnable lead by 86 points or 5.5 seconds before the 800m. Javelin throws in the 53s lifted Broesen and Ikauniece-Admida to second and fourth respectively and meant that pair would run for the bronze medal. Ennis-Hill and Theisen-Eaton were better 800m runners and the Canadian proved that with her quick pace in the final heat (30.11, 62.83, 1:36.31). Ennis-Hill came through to win that race and a second world title. Two heptathlon golds became three when Tatyana Chernova's disqualification from 2011 was confirmed.

Olympic Champion "Nafi" Thiam had just become only the fourth athlete ever to exceed 7000 points, and was a big favourite to win in London. The Belgian moved into the lead after the high jump, where she cleared 1.95, a height that was matched by Rodríguez as both equalled Carolina Klüft's championship best from 2003. The home favourite Johnson-Thompson dropped out of contention when she only cleared 1.80. A week later, she placed fifth in the individual high jump with 1.95. Had she done that in the heptathlon, she would have won a silver.

Thiam dropped to second place only once, following the 200m, which Schäfer won with 23.58. The German led the Belgian 4036 to 4014 overnight, both women now out of the range of the pack headed by Rodríguez (3905). A long jump of 6.57 versus 6.20 for Schäfer put Thiam almost 100 points clear and a javelin throw of 53.93 extended their lead to 172. She could afford to run only 2:21.42 in the 800m and still win easily on points, 6784 to 6696. Vetter took the bronze largely after a superb javelin of 58.41 which gained 214 points on the Cuban. Both set national record scores.

Ten years after her world youth title, Johnson-Thompson finally claimed a senior world gold. She was off to a brilliant start, cutting 0.2 from her hurdles best. Defending Champion Thiam was close to her fastest in the same heat, then Williams stunned everyone with an heptathlon championship record of 12.58. Both KJT and Thiam high jumped 1.95 (KJT winning) and though the Belgian clearly won the shot, the Briton set another substantial personal best in that event. Johnson-Thompson's 23.08 200m was slightly disappointing given her hurdles speed, but she won that event and led overnight with 4138 from Thiam 4042 with Williams 187 back.

The Briton's super form continued into the long jump. Four years earlier in Beijing she fouled out. This time she spanned 6.77 on her second attempt for another event win. Thiam managed only 6.40. The Belgian would normally have expected to gain a lot of ground with a javelin throw in the high fifties. Heavy arm strapping was evidence of her longstanding elbow injury, and she was reduced to 48.04. KJT set another throws personal best and went into the last event 137 points ahead and knowing she was the best 800m runner in the field. Starting at 16 minutes past midnight, she raced through the first 400m in 63.14 then hardly slowed. Her fourth personal best of the contest meant she broke the UK record of Jessica Ennis. Thiam was an isolated second. Williams had a poor second day and slipped to fifth as Preiner clinched the bronze.

Strakhova coped best with the 86% humidity to take the first ever championship walking gold medal at this level. The 28 year-old Soviet raced conservatively, clocking 23:21 for the first half before coming home in 20:51. Even so, she was being led by Guan Ping, who was subsequently disqualified outside the stadium. The silver went to Saxby, who was in front at halfway in 22:32. Several walkers collapsed close to the finish, victims of the difficult conditions.

The first of Stuttgart's golds, and the first of the Mercedes car prizes, went to a 26 year-old Finn who was walking in her third world championship. Nineteenth in 1987, third in 1991, Sari Essayah took the lead at around 7km following the disqualification of Svensson, the 1991 silver medallist. The Finn speeded up thereafter, and started lapping the field. The second half of the race took her just 21:05. It was no surprise to see the experienced Salvador take a silver, but Granados was an unexpected bronze medallist in a new Spanish record.

At 18 years 135 days, Stankina replaced Ismael Kirui as the youngest ever world champion of the time. She beat a strong field which produced the quickest times ever for places between third and fifteenth. Twelve walkers were in contention at halfway with Perrone forcing the pace (21:21 at 5km).

The drama started in the final 2km when Perrone, Stankina and World Cup winner Gao moved clear. Gao was abruptly disqualified outside the stadium, leaving Stankina to win from Perrone and Nikolayeva, who suddenly and controversially caught the defending champion Essayah in the final two strides of the race.

For the first and last time the women's walk was contested in these championships as a 10,000m track event; from 1999 it would be 20km on the road. Sidoti, the 1990 European champion who only came into the Italian team as a reserve, became the smallest of all world champions (she is just 1.50m or 4ft 11in tall) as she led from the second kilometre onwards for victory in 42:55.49 ... somewhat quicker than the 45:02.8 which won the last men's Olympic race at this distance on the track in 1952! Sidoti covered the first half in 21:23.72, the second in 21:31.77. Defending champion Stankina, the only opponent to stay close to Sidoti after halfway, was disqualified at 8km. Her Russian colleagues had a disastrous time also: Ivanova, who crossed the line in second place, was later stripped of her medal and banned for two years after testing positive for Stanazolol, and Olympic Champion Nikolayeva placed no higher than ninth.

China's only medals of the championships came here as Liu Hongyu and Wang Yan entered the stadium well clear of the rest and just two strides apart. Covering the final 5 kilometres in a vicious 22:11, Liu (24) won the inaugural world title at this distance. She had already won the World Cup race earlier in the year in 1:27:32, just 2 sec outside the world record she shared. Wang, who became the youngest ever world record breaker when setting 5000m figures in 1986, aged 14, added a silver to her Olympic bronze of 1996.

The bronze went to a real veteran in 38 year-old Junna-Saxby, 12 years after taking silver; although she thought she was fourth when she finished. Fedoskina, who set a world junior best of 1:27:35 for second in the World Cup, was disqualified when in third place just seven minutes from the finish, while defending champion Sidoti was a non-finisher due to stomach trouble.

high disqualification rate; a third of the starters were red-carded, though Ivanova herself never received a single warning despite leading all the way. Tsybul'skaya was a clear second and in third place Perrone and Plätzer crossed the line together. Perrone was given the verdict over the Norwegian, who was disqualified anyway.

At her seventh attempt, Nikolayeva became World Champion. The 37 year-old had won a bronze medal (at 10K) in 1995, the year before becoming Olympic Champion. She won in Paris with a championship record and no warnings.

After the first two laps (5K), the Russian was a close third behind O'Sullivan and Perrone. By 10K, she had a 20-second lead which had more than doubled by 15K. O'Sullivan was a clear second from Gudkova, Giordano and Tsybul'skaya. The Belarusian came through for the bronze in a new national record. The 2001 winner Ivanova led out of the stadium but retired after six minutes clutching an injured hamstring.

Ivanova, holder of the fastest-ever time (an unrated 1:24:50 in 2001), and teenager Jiang were the early leaders. They passed 5km in 21:43.

Jiang dropped back and was disqualified before halfway, leaving Ivanova (42:54) with a yawning lead of more than a minute over Turova (43:59). Ivanova kept piling on the pace passing 15km in 64:05 (another 21:11 split), before finishing in an official world record of 1:25:41, beating the Belarusian by 1:25. Feitór won the bronze medal with seven seconds to spare from the fast-closing Vascó. It had not been a good day for Olympic Champions, as 2004 winner Athanasia Tsoumeléka was disqualified when in fourth place with 4km to go, while defending champion and 1996 Olympic Champion Nikolayeva failed to finish. The youthful-looking Ivanova, mother of a 15 year-old daughter, was the only one of the top six not to set a personal best, yet ironically her record netted her a \$100,000 bonus to go with the \$60,000 awarded to each individual winner in Helsinki.

In wet, hot (29°C) and humid (70%) conditions, Kaniskina dominated the event, leading Shemyakina by 20 seconds at 5km (22:21), and almost doubling the margin to 44 seconds at halfway (44:33). Shemyakina was, in turn, almost half a minute clear of Vasco (45:53). The order remained the same for the rest of the race, with Kaniskina slowing up only in the last quarter, covered in 23:23. She won by 33 seconds from Shemyakina, while Vasco closed up to finish only five seconds behind the number two Russian. Fastest of all in the closing stages was Plätzer, whose final 5km took just 22:38. The European Champion from Belarus, Rita Turova, had two sub 1:28 clockings in 2007 and the European Cup title under her belt, but scratched from the event for medical reasons.

Kaniskina was the clear favourite, having won comfortably in Osaka in 2007, and Beijing 2008. The Russian followed the pace for a quarter of the race, reaching 5km in 23:20. Shortly after she took the lead, covering the next two 5km stretches in 21:38 and 21:24 to lead by almost a minute from Loughnane and Hong.

Loughnane won the battle for second, beating Liu by 12 seconds in 1:28:58, gaining 17 seconds on Kaniskina in the last quarter of the race. The temperature, which rose from 27° at the start of the race to 30° by the end, was the prime factor in keeping the time as the slowest winning effort since 1999.

In January 2015, the Russian Anti-Doping Agency banned Kaniskina because of anomalies in her Athlete Biological Passport. They announced a three-year suspension for her backdated to 2012. Kaniskina's results over two separate intervals in 2009 and 2011 were also annulled. Those periods included the Berlin and Daegu World Championships, but World Athletics subsequently filed an appeal with the Court of Arbitration for Sport regarding the "selective disqualification of results applied by RUSADA" to Kaniskina and five other Russians. The CAS upheld the World Athletics appeal and in March 2016 it was confirmed a three year and two month ban to December 2015 and disqualification all competitive results since August 15, 2009. All of which meant that Loughnane became Ireland's second female World Champion besides Sonia O'Sullivan.

Aiming to be the first three-time winner in the event (or so we thought) Kaniskina stayed within the pack of 13 through halfway (46:16) before increasing the pace with a third 5km of 21:47. At that point her lead over Kirlyapkina was five seconds. Liu, in third place just three seconds behind Kirlyapkina, got clear of the second Russian to clock 1:30:00, but finished 18 seconds behind the diminutive (1.60m/43kg) Kaniskina. In sixth place (eventually fifth) was Feitór, the only athlete to have competed in 11 World Championships, her best position being third in 2005.

Kaniskina supposedly broke the “curse” of the Daegu daily programme. The cover stars for the first four days of the competition – Steve Hooker, Usain Bolt, Dayron Robles and Yelena Isinbaeva – all failed to win medals. From March 2016, for reasons set out in the report for 2009, Kaniskina could no longer be regarded as a medallist. Her compatriot Kirdyapkina was also later caught out by irregularities in her Athlete Biological Passport. Silver to Rigauo, bronze to Qieyang.

London 2012 Olympic Games and 2013 World Athletics Championships in Moscow.” Lashmanova’s saction was confirmed in May 2022.

For two successive World Championships, Russians placing first and second in this event were disqualified. China’s original bronze-4th, which was upgraded to silver-bronze in 2019, was transformed to gold-silver with Rigauo winning bronze. Which meant that Liu ultimately became a four-time champion at this event.

The early pace was set by Rigauo and Drahotová, as 5km was passed in 23:17, with Olympic Champion Lashmanova seven seconds behind. The gap was the same at halfway, with the 18 year-old Czech walker timed in 45:20, a second ahead of Rigauo, Lashmanova and Kirdyapkina. The Russian pair applied pressure over the next quarter of the race, covering that section in 21:27 and accumulating a five-second lead over Rigauo at 15km. In sixth place was the third Russian Sokolova, who then scythed through the field towards a bronze medal, but was disqualified on reaching the stadium.

Meanwhile, Lashmanova had broken away from Kirdyapkina with a 19th kilometre in 3:58 (1:19:20 pace), but lost a lot of her advantage when becoming confused about the location of the finish when inside the stadium. “The judges didn’t really explain to us that we should do one more lap,” was her excuse.

For Lashmanova it was the final gold medal in an annual sequence of five, the previous four being World Youth 2009, World Junior 2010, European Junior 2011 and Olympic Games 2012. In January 2014 she tested positive for a performance-enhancing drug and was banned for two years. Her Moscow medal wasn’t affected, but that wasn’t the case with Kirdyapkina. In March 2019, she was disqualified across 2011-2013 for biological passport abnormalities.

On March 21, 2022 The Athletics Integrity Unit tweeted: “Following AIU charges based on LIMS [Laboratory Information Management System] data and the McLaren evidence, Russian race walker Yelena Lashmanova has been banned for two years, starting 09 March 2021, for the use of prohibited substances, a violation of World Athletics anti-doping rules.”

It added “Lashmanova has accepted the sanction proposed by the AIU, including DQ of her results b/we 18 Feb’12 & 3 Jan’14. She is set to lose gold medals from the women’s 20K race walk event at the

Liu and Lu were the only contenders to have ducked under 1:26 during 2015, and they led throughout the race. At 5km (22:24), only Drahotová was in touch, and by halfway (44:19) the Chinese duo led by 26 seconds. Olyanovska gained a few seconds on the leading pair in the next quarter, but then Liu/Lu finished off with the fastest 5K section – 21:21. Liu held off Lu as the younger athlete appeared unworried to place second to her more experienced compatriot.

A pack of 10 headed the field at the halfway point, reached in 44:10, led by Palmisano. By the 15km mark the lead group was down to five, with Yang and González in front. Lu, Palmisano and de Sena were the other members of the pack.

The Brazilian lost touch a kilometre later and Palmisano fell back after 18km. Lu was eventually disqualified with a kilometre to go, although she stayed with Yang and González until there was 40m remaining. Yang went on to win by five metres. Fourteen of the top 16 set seasonal or personal bests, with de Sena setting a South American record of 1:26:59 in fourth place.

The former champion Liu served a brief doping ban in 2016 before winning at the Olympics, then did not compete in 2017/2018 due to maternity. She came back in style in 2019 with a world record at 50km and led a strong Chinese quartette on the Doha waterfront course. There were four because of the wildcard entrant Jiayu Yang.

All the Chinese were in the leading group of nine at halfway (27:51) with Liu in front. By 15km the four Chinese were 10m up on de Sena and Arenas. The pace quickened and Liu broke clear with a 18th kilometre of 4:17, followed up with the fastest lap of the race, 4:09. Qieyang and Liujing Yang finished next quickest for the first Chinese medal sweep since the 1993 women's 3000m run. It might have been a 1-2-3-4 had Jiayu Yang (elder sister of Liujing) not been disqualified in the 19th kilometre. The winning time was the slowest in World Championship history.

Once historic doping sanctions were fully imposed (on Olga Kaniskina then Yelena Lashmanova), Liu became a four-time champion. Her 2015 and 2019 titles were straightforward. In the meantime, she inherited the 2011 gold in 2016 and then the 2013 title in 2022.

On July 23, 2017, just three weeks before the athletes lined up, it was announced that "based on its wish to ensure gender equality on the field of play, the IAAF Council has decided to create a new 50km race walk competition for women at the IAAF World Championships London 2017." So for the first time, there would be the same number of world championship events for women as for men, 24.

A strong advocate of this development was Talcott, who had competed as part of the US men's team at the previous year's World Race Walking Team Championships in Rome. Ironically she became the only walker disqualified in the race, only getting to the 10km mark. Henriques and Yin passed halfway in 2:02:18, and the Portuguese athlete drew away after 30km, stretching a four-second lead at that point to 50 seconds by 35km. It was only in her final 5km (26:00) that Henriques began to slow noticeably, but she was still good enough to take her across the line in a world record of 4:05:56.

The Portuguese therefore earned a winner's \$60,000 plus a record bonus of \$100,000. China took silver and bronze, with Yin setting an Asian record of 4:08:58. Burnett set an American record in fourth, the last woman to complete the distance. Da Rosa and Randall were ranked in fifth and sixth place after being officially required to withdraw. They did not achieve the prescribed time limit of 4:00:00 at 45km. That placing was significant for the American. At 42, she became the oldest ever woman to place in the top eight at a World Championships.

The race was staged with the men's event and started thirty minutes before midnight. The athletes completed 25 laps of 2km on Doha's Corniche. Liang and Li of China, together with reigning champion Henriques, and European Champion Giorgi, formed atleading group at 10km (55:18). As the pace increased, Liang and Henriques then went clear. By the halfway point Liang led decisively from Li and Giorgio, while Henriques began to fall back. She eventually dropped out in the 37th kilometre. Liang was 1½ minutes clear of Li by 40km, and eventually won by more than three minutes. In spite of the 31°C heat and 74% humidity, 17 of the 23 starters finished and there were only four warnings in total with no disqualification or penalty waits.

With the United States team – minus Evelyn Ashford – missing the final after nearly dropping the baton, the GDR looked unbeatable.

However, in the final, Gladisch committed a false start, and at the second time of asking Canada were away best. On the second leg, the GDR took control through Koch and individual champion Göhr had a decisive lead on the final changeover.

The real battle was for the silver and bronze. On the outside lane, Britain's Thomas sprinted clear of Bulgaria and just held off Jamaica's Ottey for second place.

Rightful finalists: Nigeria

The GDR faced tough opposition from the USA, and their cause was not helped by the injury to Heike Drechsler the day before the heats. The world 200m record holder was unable to take her place on the team. The GDR won their heat but were precisely one second slower than the USA's time in the other preliminary race.

In the final, the GDR took the lead on the first leg through individual winner Gladisch. Oschkenat kept that advantage down the back-straight, but the United States went in front after a scintillating bend by the Griffith. Pam Marshall extended the US lead on the anchor, running away from Marlies Göhr.

The United States' chequered record in this event continued when their baton was dropped on the first changeover in the heats. This meant that the great Evelyn Ashford missed her final chance for a World Championship medal. The title went to a country which had more than its fair share of relay troubles in the past, Jamaica.

Germany, after an easy 41.91 in the heats, were favourites to win the final. Breuer and Krabbe gave their team an expected lead. They lost some of this on the third leg, but their hopes of winning vanished when anchor runner Drechsler started too early. She had to slow down and look round to collect the baton before the end of the zone. In the process, she lost the advantage she needed over the USSR and Jamaica. Privalova hit the front, only to be passed by the long-striding Ottey. She came from way back to score one of the most popular wins of the week. She was timed for her 100m stretch, by video analysis, in an unprecedented 9.72.

Gail Devers was involved in a photo-finish yet again, but this time her famed dip was not enough to take gold. The Russian team, including three 200m finalists, led with the United States and Jamaica for the first half of the race. The Jamaicans fell back on the third leg while the leading two teams handed over together. The anchor leg brought Devers (lane 3) against Privalova (lane 4). Devers looked as if she might sprint clear, but the Russian refused to be beaten.

Just as in the individual final, the slow-motion replays and photo-finish displays did not identify the winner. Russia were eventually confirmed as the champions. "I was so nervous over the last 20m I shut my eyes," said Privalova. "I didn't know we had won and it seemed like hours rather than minutes before the result was announced."

In third place, Jamaica duplicated their winning time from Tokyo and Merlene Ottey won her 10th world championship medal.

This event was given an extra edge after Torrence's 200m disqualification, from which Ottey was the main beneficiary. The two would each run the anchor leg.

It was Germany who got the best start. The USA and Jamaica had excellent third legs and both Ottey and Torrence received their batons

simultaneously. The USA had the sharper exchange, giving Torrence an advantage which she held despite a determined effort by Ottey. The Jamaican's silver was a record 13th World Championship medal.

"We are a great team despite the fact that we couldn't practise very much," said Torrence.

The fastest ever heat time of 41.52 by the Americans suggested the GDR's 1985 world record of 41.37 would be in danger in the final, but the squad had to be content with victory in history's second quickest time of 41.47. Anchored by Devers in 9.86 for her flying 100, the USA won by a good six metres over an Ottey-less Jamaica with France (sans Pérec) setting a national record in third place. The most disappointed team must have been that from Bahamas; their winning heat time of 42.19 would have sufficed for a medal but a bungled baton change put them down to sixth in the final.

Even with Miller and Devers taking the last two legs, the USA (deprived of the injured Jones) were out of the medals as the Bahamian quartette, including Davis in her seventh World Championships, sped around for a Commonwealth record of 41.92, a time bettered only by the GDR, USA and Russia – and that by a nation of little more than quarter of a million people. Thanks to a storming last leg by Arron, France snatched second place ahead of Jamaica, for whom McDonald won a medal for the fourth time at this event. The Canadian team was led off by Bailey (37), a double sprint finalist at the inaugural 1983 World Championships.

(1.) ¹⁶¹ United States	DQ (ADr11.1) (41.71)

Rightful finalists: Sri Lanka

Jones collected what would have been her fifth world gold with ease, because her three team-mates combined to give her a lead of three metres over the other anchor leg runners. The United States time of 41.71 was the world's fastest since Athens 1997. Germany took silver ahead of France, for whom Sidibé ran a storming anchor to overtake the Jamaicans. It was France's first medal of the week.

In 2004, the teams in places 2-8 all moved up one after US lead-off runner White admitted doping violations going back to 2000. Her team was disqualified and the golds were eventually awarded to Germany at the Berlin Golden League of 2004. Three years after that, it was Jones's turn to admit to cheating since 2000. A third US team member, Gaines, was also found guilty of a doping offence. Unlike the other two it was not for the period of the Edmonton World Championships.

The first round previewed a titanic battle between the United States and France, whose teams each won with times of 42.03 and 42.04 respectively. Whereas the French were at full strength in their heat, the US had rested the original individual 100m gold and silver medallists, Kelli White and Torri Edwards. The plan had been to bring those two in for the final, but the prospect of disqualification was hanging over White because of her positive test for a stimulant after the individual 100m. Had she contested the relay, then her team's result would have been ultimately annulled following her later admission of drug-taking. Actually White withdrew herself from consideration, but the US team for the final was still strengthened by the insertion of Edwards on the anchor.

The draw put the USA in lane 4 with France in 6. The two teams were close throughout the race with neither making major mistakes. Edwards got the baton with a slight lead. French anchor Arron was a disappointed sixth/fifth in the individual final but was a renowned relay runner. To the crowd's delight she gradually caught then passed Edwards, giving France their second gold of the day just 20 minutes after that of long jumper Eunice Barber.

The United States were the fastest in the heats, clocking 42.16 in the first heat with the Bahamian team failing to finish after Sturup was accidentally knocked over while waiting for the baton at the start of the backstraight. France edged Jamaica in the second race and Belarus won the final heat in 42.80, where Russia messed up their final baton change and did not finish.

Using the same squad in the final, the United States team was led off by Daigle, who ran even with Nesterenko, and a metre ahead of Jamaica. Lee then held Simpson, with Belarus losing ground. Barber extended the US lead to 3m, and 100m winner Lauryn Williams took the US team to a 2m win, as Campbell gained a metre on the last leg. Belarus held on to third place, as Arron closed quickly to take the slow-starting French team from sixth to fourth on the anchor leg. Barber became only the second athlete to win gold in both relays, the other being Gwen Torrence in 1993. Allyson Felix was to follow soon. The winning time was identical to that of 2003.

The top teams were evenly-matched on the first leg of the final, with Williams and Brooks both clocked in 11.05 by the Biomechanics Team of World Athletics and the JAAF. Felix opened up a gap of a metre on Stewart, and the US lead was increased on the third leg as Barber gained a further metre on Facey. Edwards (10.21) held off Campbell (10.06) by half a metre, though Campbell was closing in rapidly on the American at the finish. Britain led the chasing group at the final exchange, but Gevaert took Belgium from sixth to third with a stirring anchor leg of 10.17.

In the Beijing Olympics neither of the favoured teams, the USA and Jamaica had won a medal. The bad luck continued for the US despite having clocked 41.58 – the best time of the 21st century – two weeks

earlier. This time, their third-leg woman Lee suffered an unfortunate injury at the point of changeover.

The Jamaican squad – which controversially omitted Veronica Campbell-Brown – clocked a snappy 41.88 in the heats but were not as quick in the final though Facey was slightly ahead of the Bahamas at the first changeover. Fraser, the 100m winner, added a metre to the Jamaican lead ahead of Sturup, and Bailey. Stewart began with a 2m lead which she maintained over Ferguson-McKenzie. Germany held off Russia (later disqualified) and Brazil for the bronze medal.

Jamaica took an early lead with Fraser-Pryce, and the Jamaicans handed over a metre to the good. Felix gained slightly on Stewart, and a better changeover gave the US the advantage. Myers handed to Jeter with

nearly 2m advantage over Campbell-Brown, and the 100m champion lost a metre of that of that to finish in 41.56, the eighth-fastest ever. Behind them the Ukraine (42.51) were able to hold off Trinidad (42.58) for the bronze medal, though the latter were disqualified when a doping violation of Hackett was confirmed. This turned out to be just the third time in nine races in the 21st century that both Jamaica and the USA had legitimately finished in a global 4x100 metre championship. Felix collected a record eighth gold medal from these championships.

The top seeds dominated the heats. Jamaica took the first race in 41.87, then the USA won other heat in 41.82. Second in those races were France (42.25) and Brazil (42.29). Of the four teams, only one would

have an unsullied race in the final two hours later. Over the first two legs Jamaica and USA had a great battle, with Russell for Jamaica leading Tarmoh, and then Anderson coming back at Stewart after a poor Jamaican baton pass. The race was lost by the USA on the second changeover, when Gardner had to virtually stop to receive the baton after starting far too soon. Jamaica were already 10m down the track when the US baton pass was completed, and with Fraser-Pryce on the last leg (clocking 9.75), the gold medal was a Jamaican certainty.

The USA were in sixth place at the last changeover, but fought their way to third, which became second when – after having received silver medals – France were belatedly disqualified after a zone infringement at the second changeover. Britain were promoted from fourth to bronze, meaning that their lead-off runner Asher-Smith (17) became the then third youngest-ever World Championship medallist after Sally Barsosio (1993 women's 10,000m) and Darrel Brown (2001 men's 4x100m relay).

The Jamaicans were again at full strength with World Champions on legs one and four and new star Thompson on the third. Conversely, the United States were without their number one sprinter Tori Bowie, who was taken out of consideration for the relay pool after missing two relay practice sessions earlier in the summer.

Campbell-Brown gained over a metre on Gardner at the start. Morrison and particularly Thompson stretched the advantage over Felix and Prandini, leading by 1½ metres at the final change-over. In third was Trinidad and Tobago just ahead of the Netherlands, who botched their take-over and were disqualified. Fraser-Pryce gained over four metres on the anchor, with Jamaica running 41.08, the second-fastest time in history.

The Jamaicans had a metre advantage over Britain and the US after the first changeover. The biomechanical evidence shows that Britain led at 200m in 21.34, but then lost ground on the change between Henry and Asher-Smith. Jamaica then edged ahead, but it all changed

again in the final transition. The last Jamaican changeover (from Facey to Forbes) took an horrendous 1.10, for a total zone time of 2.26. Their chances of gold were ended, and that was almost the case also with the USA. Their final exchange element took a moderate 0.69 and occurred dangerously late in the zone, with anchor woman Bowie needing to look back. Britain also had an average pass by their standards (0.55) and it meant the Bowie's raw speed at the end took the gold. A second for her and a 10th for Felix.

Several key competitors were out of action, with the US suffering worst of all without individual 100m entrants Tori Bowie and English Gardener. Jamaica were also missing Elaine Thompson. Those two squads duly won their heats, but only Jamaica were able to bring in rested talent for the final when 400m star Jackson replaced Morrison on the anchor. The US fielded the same team as in the heats while Britain were weakened when 100m semi-finalist Lansiquot got injured warming up.

The US had a slight advantage over Jamaica at the end of the first leg, and then Fraser-Pryce blasted the second stage in 9.7, gaining 2m on Asher-Smith and twice that on everyone else. At the last changeover Jamaica had a clear lead which Jackson (10.03) held to the finish. Britain (Neita 10.04) drew clear for the silvers. The win gave Fraser-Pryce her ninth World Championship gold.

Less than three hours after taking the 200m title, Koch sped away from the opposition to open up a 25m gap with a split of 48.55. Some of this ground was lost on the final changeover. RübSam started a little early and Koch had to lunge three times before the baton was successfully passed. The USSR were now a clear second.

The GDR's lead proved too much for Kratochvílová, who nevertheless moved into second place with a brilliant 47.75. The winning time was the fourth quickest ever, and might well have been a world record had it not been for the fumble on the last exchange.

"That last race was the hardest," said Koch. "I could feel every one of the 11 races I had already run."

A third Helsinki gold medal for Kratochvílová looked a distinct possibility, especially as the GDR would apparently be without her arch rival Koch, who had not raced at 400m all year.

Czechoslovakia, the GDR and the USSR dominated the final from start to finish. By putting individual silver medallist Kocembová on the first leg, the Czechs expected to get a big lead and this they managed when a terrific 48.93 split gave her team an advantage of 15m. The two Czech "weak links", Matejkovičová and Moravčiková, followed. Matejkovičová lost all that advantage on the second leg as the GDR, through Busch, moved ahead. Then came the GDR's masterstroke: the insertion of Koch on stage three.

Busch claimed her third World Championship gold medal when she comfortably held off individual champion Bryzgina on the anchor leg.

The GDR looked vulnerable without Marita Koch and were only fifth after the first changeover. However, Emmelmann's stint of 49.1 followed by Müller's 48.64 gave Busch a 15m advantage at the last changeover. The United States were an isolated third.

The United States opened up a big lead on the first leg but were reeled in by the Soviet Union. Thanks to a sub-49 leg by Olga V. Nazarova, Bryzgina – the reigning Olympic Champion – took over level with Lillie Leatherwood on the anchor leg. The American proved to be no match for Bryzgina, who won her third (and the USSR's final) World Championship gold.

Germany's bronze medal was due to the inclusion of double sprint champion Krabbe on the second leg. She clocked 49.8 to bring her team up from sixth to third. They lost this place temporarily to Great Britain before Breuer produced the fastest split of the day on the anchor leg.

The 500m stagger often hides the quickest runners on the first leg of a 4x400m relay. Not so this time because sprint star Torrence produced the astonishing time of 49.0 to give the United States a huge lead. With the individual 400m gold and silver medallists to follow, the USA were never in danger of being caught, even though another sprint specialist, Privalova, ran 48.47 for Russia on the anchor.

There had been some debate behind the scenes about the composition of the US relay team. Gwen Torrence and hurdle stars Kim Batten and Tonja Buford were being considered by the coaching staff, but the main relay squad rejected this proposal.

In the event, the US won easily. Britain led at the first changeover before Russia and the USA moved clear. On both the second and third legs, the Russian runner started quickly before fading and succumbing to their US rivals. A 49.56 anchor by Miles secured the US victory. Hurdles medallist Hemmings overtook the Russian anchor to finish second for Jamaica.

The second fastest split of the race was 49.57 by Cathy Freeman, who brought Australia from a distant sixth to fourth, then third when Jamaica were disqualified for a lane infringement.

Races don't come much more exciting than this one as four teams were still in contention at the last change-over. As the runners entered the final straight it was Alekseyeva of Russia leading from Richards of Jamaica, Miles-Clark of USA and Breuer of Germany. Based on form in the individual 400m it looked as though Richards (2nd) and Miles-Clark (3rd) would fight it out, as indeed they did, but for silver. It was Breuer, only fourth in the 400m but always a notch better in relays, who dug deepest. She powered past a struggling Alekseyeva on the inside and stole a march on the other two to complete her leg in 48.69. Having been suspended at the time of the last two editions, these were her first World Championships since, as a junior, she finished second in the 400m in 1991. Miles-Clark ran her anchor in 49.19 and Richards 49.45.

The USA led narrowly from Russia for the first two legs thanks to Reid and Malone-Wallace, but Kotlyarova took the Russians into a four metre lead on the third stage and Nazarova, with a very mature run, just held off Miles-Clark on the anchor. Rücker and Breuer (with the race's fastest split of 49.04) on the final two legs hoisted Germany into third place, only a stride or two behind the leading duo. The highly rated Nigerians did not show up for their heat.

Jamaica, a country with a share of bad luck in World Championship and Olympic relays, benefited from a terrible mistake by the United States anchor runner. The race started well for the USA when Miles-Clark – seeking a fifth successive world relay medal – opened up with a 50.2 first leg. Hennagan moved further away with a 49.7 on the second leg, and Collins held a 10m advantage over Parris. halfway through the third stage. Parris herself was 10m up on the Germans, and the Jamaican then closed slightly on Collins.

The US anchor runner Reid would have wanted a cushion over her Jamaican counterpart, who was the World and Olympic silver medallist Fenton. Collins delivered a 7m advantage, then suddenly Fenton emerged as the clear leader on the first bend. The unfortunate Reid had received the baton safely, but then dropped it when passing it from her left to her right hand. It bounced behind her onto the infield and by the time she retrieved it, 40m and a certain medal had been lost. Jamaican went on to win in a Commonwealth record of 3:20.65. Observers felt that without the dropped baton, there would have been a great race between Fenton and Reid. A month later at the Goodwill Games in Brisbane, the same teams clashed again with the US defeating Jamaica 3:24.63 to 3:24.87.

The United States made amends for their 2001 disappointment; this time it was the opposition who suffered at the final changeover. European Champion Zykina put Russia in front after leg one. Pechonkina increased that lead but the US were still contention at halfway, while Jamaica were also within range. On the third leg it was 200m champion-elect Kapachinskaya versus the hugely experienced Miles-Clark. The American closed to within 2m. Kapachinskaya exchanged to Nazarova, but the incoming Russian was momentarily blocked by the Senegalese anchor Thiam, who strolled illegally from the waiting echelon into lane 1 before her incoming team-mate had arrived. An unobstructed exchange between Miles-Clark and Sanya Richards popped the US team into a lead of 2m.

One felt that the American, still a junior, might succumb to Nazarova (fourth individually) and/or individual silver medallist Fenton who ran a brilliant first 300m to make up around 10m on the leading pair. However the 18 year-old ran a well-judged leg to hold on to her lead. At the other end of the age scale, Miles-Clark (four days short of her 37th birthday) became the oldest ever track gold medallist.

Russia won the first heat in a world leading 3:20.32, with Krasnomovets and Antyukh on the first two legs sealing their places in the final with legs of 50.1 and 49.4. The USA won the other heat in 3:23.38 and a great final was in prospect, except that lead-off runner Suziann Reid ran out of her lane, dooming her team to disqualification as did Moushami Robinson, who illegally switched position while waiting to start the third leg. One felt pity for Reid as she had been the one to drop the baton four years earlier in Edmonton.

Russia's Pechonkina started slowly in the final, but led Jamaica by a metre at the first handover. Krasnomovets gradually extended the lead in the last 100m of the second stage to 5m with a 49.7 split, as Novlene Williams ran 49.92 for Jamaica, some 10m ahead of Britain and Poland. The margin was 20m after Antyukh's leg, with Jamaica and Poland neck and neck. Pospelova finished 20 metres clear of Jamaica, running the same time as Fenton (50.42), with Britain just holding off Poland for the bronze medal.

Shericka Williams gave Jamaica the lead in the final, surprisingly heading Britain's new World Champion Ohuruogu 50.5 to 50.6. The tenor of the race changed on the second leg. Lloyd kept Jamaica in front till just before the 600m point, when Felix went past. The double 200m World Champion had covered her first half in 22.2, and she kept going to record 48.0 for her leg, giving the USA a 10m advantage they would maintain to the finish. Jamaica were four metres clear of Russia and Britain were a similar margin behind the Russians. Veshkurova and McConnell ran the fastest third legs, leaving Jamaica just one metre ahead of Russia at the final take-over. Richards kept the USA clear of trouble with a well-judged 49.07 anchor. Williams's 48.93 was enough to hold off Sanders for the silver medal, despite the Briton's 48.76 leg

Dunn gave the US the lead in the final with a 50.5 opening leg, 2m clear of Kapachinskaya, with Jamaica a further 5m behind. As she had done in Osaka and Beijing, Felix then settle the race, extending the USA lead to 10 metres with a 48.8 leg, as Firova (49.9) was almost caught by Williams-Mills's 49.6. Demus maintained the USA lead with a 50.14 leg, while Russia stayed 3m clear of Jamaica. Richards

then ran the fastest lap of her career – 48.44 to give the USA a 25m win, while Shericka Williams outran Krivoschapka by a full second to win Jamaican silver. For Felix, this was a sixth world gold.

Eight years later the Russian lead-off runner Kapachinskaya, and therefore her entire relay team, were disqualified after she failed retests of her doping samples from the Beijing Olympics and Daegu World Championships. It wasn't the first time she had been involved in a doping story. Back in 2003, she was promoted to gold in the World Championship 200m following the disqualification of Kelli White (USA). One year later, the Russian was herself stripped of the 2004 world indoor 200m title after testing positive for a banned substance. This time she was suspended to 2020 with more than 60 results disqualified, including 2011 where she won individual and relay bronzes.

In the final Richards-Ross settle things on the first leg, clocking a magnificent 49.4, the fastest run from the gun by a woman in Daegu. Whyte for Jamaica was second, six metres behind, just ahead of Krivoschapka (50.3). On the second leg, Felix (49.2) extended the lead slightly over Prendergast. Beard and Williams-Mills both ran 49.84 for their legs, with Jamaica now six metres ahead of Russia.

McCorory anchored the USA in 49.52, a leg which featured a fast first half and a laboured last 50m, but she got home five metres clear of Shericka Williams who ran 49.22, the same time as Kapachinskaya in third. For Richards-Ross, it was a record fourth 4x4 gold.

Ukraine and Russia were ultimately removed from the results when Yefremova (2012) then Kapachinskaya (2017) were disqualified for doping offences which dated back to before their Daegu appearances. As in 2009, Russia forfeited the bronze medals. Their heat performance was also annulled (under World Athletics Anti-Doping rule 11.1), even though Kapchinskaya was rested for that round.

When all these details were confirmed (in late June 2017), Ohuruogu emerged as a six-time medallist. She had been part of the British teams which had originally finished third in 2005, 2007, 2013 and 2015, as well as fourth in 2009 and 2011. Her 2013 bronze turned to silver because of that year's disqualification of Antonina Krivoschapka. With Kapachinskaya also out of the equation, both those fourth places became bronzes.

Rightful finalists: Poland

The United States were missing Allyson Felix, such a key contributor to their previous victories, but unavailable following her hamstring tear in the Moscow 200m. Nevertheless the defending champions opened up a lead of three metres on the first stage, which Hastings extended to 10m before Firova gained all of the lost ground in the finishing straight. On stage three, Ryzhova put Russia clear by a couple of metres. Krivoshapka was able to pull further away on the anchor. With 200m remaining, her lead was seven metres, but McCorory pulled back all but two in an enthralling last 100m. Britain were third, while potential medallist Jamaica were disqualified in the heats when Whyte ran out of her lane on the first leg.

Russia's win enabled the hosts to end the championships on top of the Moscow gold medal table with seven golds to six by the United States, but that situation was temporary as, one by one, Russian champions were disqualified for doping violations. The first of these were the 4x400m squad thanks to initially to Krivoshapka, who in 2017 failed a re-test of the sample she gave at the 2012 Olympics. Lead-off woman Gushchina and heat runner Antyukh were similarly disqualified. Firova and Ryzhova, the two other Russian women in the squad line-up, were each disqualified from separate championships, though not personally Moscow 2013.

Day led for Jamaica at the first exchange in 50.3, with former World Champions Ohuruogu and Richards-Ross a surprisingly long way behind. Jackson's excellent 49.5 served to extend the lead to almost 20m. McPherson ran a solid leg of 50.19 for Jamaica, but was totally eclipsed by Felix, who ran one of the fastest ever relay legs – 47.72 – to give the USA a four-metre lead. McCorory held off the vastly experienced Williams-Mills until the last 25m, when the Jamaican flowed past to win by three metres. A long way back, the battle for third was clearly won by Britain ahead of Russia and Nigeria, though the latter team was ultimately disqualified thanks to a prior doping violation by Adeoye.

Jamaica had a great start to the defence of their title when Gordon clocked 50.9 for her leg, but then disaster struck as McLaughlin-Whilby pulled up on the second leg with a cramp. Meanwhile, Felix was embarking on another of her incredible efforts, a split of 48.7 to put her team 30m ahead. Still to come for the US were Wimbley, who'd clocked 49.2 in the heats, and Francis, who was the new individual World Champion. This time Wimbley registered 49.58 and Francis 50.28, each the fastest of their stages. Their final winning margin was a record 5.98. Britain won the battle for second from Poland.

Felix's World Championship medal haul now stood at a record 11 gold, three silver and two bronzes. To that can be added three more

golds as a youth and indoors. A less obvious record was broken by 1.87 tall Wimbley. She became the tallest woman to win an World Championship gold on the track.

Jamaica won the first heat in a world lead of 3:23.64. That was replaced by the USA's 3:22.96 in heat 2, featuring sub-50 splits from Felix and Okolo. The USA fielded an entirely new squad in the final. Francis put her team into a 6m lead from Poland on leg 1. The stadium clock misleadingly stopped at 49.51 but Francis's actual time was more like 50.6. Despite an excellent 49.7 by Wyciszkievicz, the Poles found

themselves almost 10m further back after McLaughlin was timed by video analysis at 48.8 (as opposed to the calculated estimation of 48.7). Williams ran 49.6 to keep Britain in touch with Jamaica detached. At the front, another hurdler Muhammad widened the US lead to 25m. Meanwhile McPherson brought Jamaica back into the chasing pack with her 49.6 effort. The US anchorwoman Jonathas was out of reach but the battle for silver was lively. Jackson edged ahead for Jamaica, then was outrun in the straight by the experienced Świąty-Ersetic.

The Jamaicans were briefly disqualified for a changeover violation, then reinstated by the referee. Having completely different teams in the heat and final meant that eight US women collected world championship golds in one event. For Felix it was a 16th gold across all World Championships, though her first as a reserve runner.

UNIVERSAL

4 x 400 Metres Relay

Doha 2019

Final (Sep 28)

1,	United States	3:09.34 _{WR}
2,	Jamaica	3:11.78
3,	Bahrain	3:11.82
4,	Great Britain & NI	3:12.27
5,	Poland	3:12.33
6,	Belgium	3:14.22
7,	India	3:15.77
8,	Brazil	3:16.22

The threshold for the first world record was set by World Athletics at 3:13.20, which was the time clocked by the USA's 'Philadelphia Force' team at Eugene in 2016. A quicker mark of 3:11.89 by Bahrain in 2018 was discounted owing to a doping violation. The world record target was therefore relatively soft on the day of the heats. US anchor-

man Igbokwe was clearly unaware of the statistics as he eased off before crossing the line to win heat one, risking world record plaques for him and his team. Happily the 3:13.20 was still clipped to 3:12.42. Doha 2019 had its first world record with three other teams inside the old standard. The other heat was much slower, but was memorable because Japan chose woman-man-man-woman for their order, whereas every other team had a male anchor. So 17 year-old 53.44 performer Takashima had a substantial lead when she got the baton, but was quickly caught and passed by the anchormen from all the other seven teams.

In the final it was Poland who tried something different to the usual pattern of man-woman-woman-man. Both their men went first, while every other team had women on their middle legs. It meant that Felix (50.4) was pitted against Omelko (44.8) on leg 2. The Poles reached 800m in 1:31.07 more than 50m up, but that was cut by around 10m on leg three which was notable for Eid Naser's stint. She brought Bahrain up from eighth to fifth with a 49.1. At the bell (2:22.22), Poland led from the US, Jamaica, Britain and Bahrain. It was obvious that Cherry (44.1) would flash past Polish anchorwoman Święty-Ersetic on the last backstraight. She then succumbed to Jamaica, Bahrain and Britain in the final 100m. The day-old world record was improved by more than three seconds and Felix won a record 12th gold from these championships, with one more to come for her heat run in the Doha women's 4x400m.

The man versus woman clashes across both rounds were jarring to watch. It was understandable when World Athletics agreed, in March 2022, that for future championships there would be a set order of man-woman-man-woman for all teams.

WORLD ATHLETIC SERIES RESULTS

This section contains the names of the first three finishers at every World Athletic Series event, including discontinued events. The order in which these competitions are listed is that originally defined in the World Athletics Series Technical Regulations. The World Athletics Championships (see from page 95 for full results) take first place in that order

The symbol “**X**” is shown next to those events where the original winner or podium order was adjusted after a doping-related disqualification

World Cup Teams

MEN

Britain's men's team were disqualified from the 2002 World Cup because their entry for the meeting had been based on performances by Dwain Chambers at that year's European Cup which were subsequently annulled because of a doping violation. However, the individual placings by British team members in Madrid were allowed to stand, though are regarded by World Athletics as non-scoring.

In 2018, horizontal jumps and throws were contested as a series of head-to-heads between pairs of athletes from different teams.

In some cases this meant that competitors were ultimately placed higher than those who jumped or threw greater distances

OLYMPIC GAMES

The second World Athletics Congress in Berlin 1913 declared that the Olympic Games should serve as their World Championships, which was the case until the first World Athletics Championships of 1983. There are several shades of opinion over the details of early Olympic results. Names, nationalities and even representative countries were not always documented.

Further comments are welcomed by the Editor

The symbol "x" is shown for those events where a medallist was definitely disqualified for a doping offence

¹ The country for which Pritchard competed is debatable. There is a good case for him to be listed as Indian and indeed several Olympic historians prefer this option. For the purposes of this book, the editor is swayed by the research of the late Ian Buchanan published in the *Journal of Olympic History* (Volume 8, number 1, January 2000). Buchanan notes that Calcutta-born Pritchard was selected to represent Great Britain after competing at the 1900 AAA Championships (in London) and was shown as being affiliated to both England and "British India" (*Indes Anglaises*) in the 1900 Olympic Games programme. He concludes that "Pritchard was a British colonial, resident in India". Further evidence is welcomed

¹ This race was originally won in 10.75 by Marion Jones USA, who in 2008 admitted to doping violations and was disqualified. Original silver medallist Katerina Thanou GRE has not been upgraded to gold medal status and remains silver medallist alongside Tanya Lawrence JAM who was promoted from bronze. In December 2009, the IOC spokesman Mark Adams explained that Thanou "disgraced herself and the Olympic movement by avoiding three doping tests ... she admitted anti-doping violations when she accepted a two-year suspension from the IAAF. The rankings in the actual race are a matter for the IAAF, and they are changed, but the actual awarding of any medal is not a right. Therefore, in this case, it will not happen. It is felt that with her conduct, she did not deserve to be honoured with this recognition."

<p><i>1 The country for which Pritchard competed is debatable. There is a good case for him to be listed as Indian and indeed several Olympic historians prefer this option. For the purposes of this book, the editor is swayed by the research of the late Ian Buchanan published in the Journal of Olympic History (Volume 8, number 1, January 2000). Buchanan notes that Calcutta-born Pritchard was selected to represent Great Britain after competing at the 1900 AAA Championships (in London) and was shown as being affiliated to both England and "British India" (Indes Anglais) in the 1900 Olympic Games programme. He concludes that "Pritchard was a British colonial, resident in India". Further evidence is welcomed</i></p>

Olympic Games Placing Tables

Here, points are awarded for the first eight placings in each event, with eight for first place down to one for 8th. For ties, points are divided between the countries involved, so that for instance equal second place by two athletes is worth 6.5 points for each country. Points are only awarded for athletes who finished in the final. None are given to those who did not finish or were disqualified. As we go to press, the International Olympic Committee have not said if has issued upgraded medals for all athletes placing in the top three following doping disqualifications. We know that a revised placing may not necessarily be accompanied with a re-issued medal, as is the case with the winner of the 2000 Olympic 100m final, Katerina Thánou (see note on page 494). These tables should therefore be regarded as showing placings rather than medals.

The editor understands that besides Thánou, Eşref Apak TUR and Vadim Devyatovski BLR (originally third and fourth in the 2004 men's hammer throw) and Nadezhda Ostapchuk BLR (originally fourth in the 2004 women's shot put) have also not been issued with upgraded medals. The consequences of these anomalies are that Greece have nine first places, but only eight golds (and one more silver than their 13 second places because Thánou was left with her original silver). Turkey has one second place and no third, but no silver and one bronze. Belarus have eight third places, but only six actual bronzes.

The two newest disqualifications from the top eight in Olympic athletics have been the 2012 women's 20km walk winner Yelena Lashmanova (RUS), and the 2021 men's 4x100m silver medallists, Great Britain (Chijindu "CJ" Ujah). The resulting placing upgrades are shown here, but we again wait (as at May 31, 2022) for the IOC to decide and announce if and how they will reallocate the affected medals. The medallists are shown on pages 483 with doping disqualifications detailed from page 509.

Notes

- Incorporating two 1st for Jim Thorpe (who was originally disqualified after winning the 1912 Pentathlon and Decathlon)
- Incorporating placings by Germany, the FRG (1952-1988) and the GDR (1956-1988)
- In the years 1896-1920, Irish athletes competed with Great Britain. For the purpose of the tables, placings are combined with those from Great Britain & Northern Ireland (GBR). From 1924, Ireland (IRL) competed independently. Incorporating silvers in 1900 200m flat & hurdles by Indian-born Norman Pritchard, who represented "British India" according to the documentation of the time (see note on page 484)
- Australia, Great Britain & Ireland, France and the USA appear with fractions in the "1st" and "2nd" columns. This is because teams of mixed nationalities won medals in the 1900 5000m Team Race (GBR/AUS) and the 1904 Four Miles Team Race (USA/FRA)
- Athletes from the former USSR competed as the Équipe Unifiée or Unified Team (EUN) in 1992
- While Russia were suspended from World Athletics, some individuals from that country competed as Authorised Neutrals Athletes (ANA) in 2021
- Incorporating Australasian 3rd in 1908 3500m walk
- Incorporating Yugoslavian placings in 1924-2000. In 1992, Yugoslav athletes competed as Independent Olympic Participants (IOP)
- If Norman Pritchard is considered to be representing India (see note on page 484) then totals should be:

DOPING VIOLATIONS IN OLYMPIC ATHLETICS

This list shows all Olympic athletes who have had their Olympic performances annulled by World Athletics (or IOC) due to doping violations, committed either at or before the Games, admissions included. Shown in bold are cases arising since this list was last published, in the 2021 World Athletics Statistics Handbook for Tokyo 2020. Cases up to May 31, 2022 are shown

○ = Decision not finally confirmed as at May 31, 2022

<p>¹ The Court of Arbitration for Sport ruled in 2010 that "at the time of the Sydney Olympic Games there was no specific IOC or World Athletics Rule in force that clearly allowed the annulment of the relay team results if one team member was found to have committed a doping offence". This meant that only Jones was disqualified from the medal-winning relay teams and the collective team result in each race was allowed to stand.</p>

OREGON 22**

WORLD AND CONTINENTAL RECORDS

(as at May 31, 2022)

ABBREVIATIONS & KEY (See also page 7)

WA = World Athletics world record; **WAu20** = World Athletics world under-20 record; **MX** = Mixed race (men and women together)
W = World best (unratified); **WO** = Women-only race; **Wu20** = Unratified world under-20 best
Wu18 = World under-18 best; **Wo35** = World over-35 best; **Wo40** = World over-40 best;
AFR = Africa; **ASI** = Asia; **CAC** = Central America & Caribbean (includes the countries with borders to Caribbean though not USA)
Com = Commonwealth; **EUR** = Europe; **NAM** = North America (CAN & USA); **OCE** = Oceania; **SAM** = South America

NOTES

This section shows world, area, Commonwealth and age records (where known) for all events on the world record lists shown under Competition rules 32 (world records), 33 (world under-20 records), 34 (world indoor records) & 35 (world under-20 indoor records). We shown separate records for North and Central America, whereas worldathletics.org have a single category, NACAC. Significant unratified best performances are also shown. The 20,000m, 25,000m and 30,000m track running events were deleted as world records by World Athletics from November 1, 2019. Where relevant, the pace is given for world record performances. If known, the time given is that of the runner who set the record, rather than the pacemaker.

A = made at altitude of 1000m or higher; **▲** = aided road course according to World Athletics Competition rule 31.21.2 (separation between start and finish points more than 50% of race distance) or 31.21.3 (decrease in elevation greater than one in a thousand);
Some areas do recognise additional marks in this category); **⚡** = awaiting ratification but otherwise valid; **h** = hand timing;
! = timing by photo-electric cell; **#** = not officially ratified; **X** = unratified due to incomplete doping control; **⊘** = not timed officially

Outright Records

In 1998, the then IAAF rule 260 was revised to allow world records to be set at a facility "with or without a roof" (in other words, indoors or outdoors). Accordingly, indoor marks superior to outdoor records and set since 1998 (not 2000 as originally noted) are listed on these pages in addition to outdoor bests. World Athletics Competition rule 31.12.1 now specifies that outright records may be set in any World Athletics certified athletics facility a competition area in compliance with World Athletics Technical rules.

The following websites have been references for the area records: **Africa**: www.caaweb.org; **Asia**: athleticsasia.org; **Europe**: www.european-athletics.org; **South America**: www.consudatle.org; **United States**: www.usatf.org; **North/Central American & Caribbean**: www.athleticsnacac.org; **Central America & Caribbean**: www.athlecac.org, though not updated since 2008 (the marks shown below are the best known by the compiler); **Oceania**, www.athletics-oceania.com

COUNTRY INDEX

This section contains details of the best achievements of the 224 different teams (counting 2017/2019's Athlete Refugee Team /ART) to have competed at the World Athletics Championships. Those underlined have only had male participants:

AFG, AHO, AIA, ALB, ALG, AND, ANG, ANT, ARG, ARM, ART, ARU, ASA, AUS, AUT, AZE, BAH, BAN, BAR, BDI, BEL, BEN, BER, BHU, BIH, BIZ, BLR, BOL, BOT, BRA, BRN, BRU, BUL, BUR, CAF, CAM, CAN, CAY, CGO, CHA, CHI, CHN, CIV, CMR, COD, COK, COL, COM, CPV, CRC, CRO, CUB, CYP, CZE, DEN, DJI, DMA, DOM, ECU, EGY, ERI, ESA, ESP, EST, ETH, FIJ, FIN, FRA, FRG, FSM, GAB, GAM, GBR, GBS, GDR, GEO, GEQ, GER, GHA, GIB, GRE, GRN, GUA, GUI, GUM, GUY, HAI, HKG, HON, HUN, INA, IND, IRI, IRL, IRQ, ISL, ISR, ISV, ITA, IVB, JAM, JOR, JPN, KAZ, KEN, KGZ, KIR, KOR, KOS, KSA, KUW, LAO, LAT, LBA, LBN, LBR, LCA, LES, LIE, LTU, LUX, MAC, MAD, MAR, MAS, MAW, MDA, MDV, MEX, MGL, MHL, MKD, MLI, MLT, MNE, MNT, MON, MOZ, MRI, MTN, MYA, NAM, NCA, NED, NEP, NFI, NGR, NIG, NMI, NOR, NRU, NZL, OMA, PAK, PAN, PAR, PER, PHI, PLE, PLW, PNG, POL, POR, PRK, PRY, PUR, PYF, QAT, ROU, RSA, RUS, RWA, SAM, SCG, SEN, SEY, SGP, SKN, SLE, SLO, SMR, SOL, SOM, SRB, SRI, SSD, STP, SUD, SUI, SUR, SVK, SWE, SWZ, SYR, TAN, TCH, TGA, THA, TJK, TKM, TKS, TLS, TOG, TPE, TTO, TUN, TUR, TUV, UAE, UGA, UKR, URS, URU, USA, UZB, VAN, VEN, VIE, VIN, YAR, YEM, YUG, ZAM, ZIM

Additionally there have been teams competing under the banner of "Independent World Championship Participants" (IWP / 1993) and "Authorised Neutral Athletes" (ANA / 2017 & 2019). These have been included respectively under Yugoslavia and Russia, as those countries supplied all the competitors in those years. All current members of World Athletics have now competed at the championships.

A single entry is show for Germany (GER), with FRG and GDR next to the name of athletes winning medals for those states in 1980-1987. For the USSR, the Soviet State of the medallists (in 1976-1991) is listed with the athlete's name.

The following information is given:

Years Entered:

The years in which the country entered the championships

Placing Tables:

Tables showing the country's placings in the first eight. Shown are total placing tables, then where relevant, separate tables for men's, women's and universal events ("Uni").

Medallists:

A list of every medallist by the country. Golds shown in bold

Highest Placings:

If there are no medallists, the country's highest overall placings are listed. In comparisons across events, we have selected the athlete who finished nearest to first place

Doping:

The symbol "X" is shown next to those athletes who have been stripped of further world medals for doping offences (see pages 92/93 for a full list)

NATIONAL RECORDS

Here are lists of records, as recognised by all members of World Athletics, for every world championship event plus the 3000m. At the end of each event list, footnotes are used to explain irregularities and give reasons why certain significant marks are not regarded as records. Asterisks are shown next to the code of countries where such a note is necessary. Included across the men's and women's sections are more than 500 marks already set in 2022 up to May 31, 2022. Those are given in bold characters.

Winfried Kramer

NATIONALITIES

Anomalies have been created by transfers of allegiance. Some countries accept records set by athletes in the grey period after they gained fresh citizenship, but before they are eligible to compete at championship level in their new colours. Other federations see things differently and for example at 1500m, we now have a North American record (3:29.30) which is inferior to the national record of a North American country (3:27.40, United States). On the other hand, there are countries which do not recognise marks set by newly-eligible athletes. We have attempted to respect the wishes of federations as well as the transfer dates published by World Athletics, but this task grows ever more complicated and some of these decisions are open to debate.

AUTOMATIC TIMES

These are given to hundredths of a second wherever possible. For sprint events, manual marks are listed only if they are at least 0.24 seconds better than the automatic record. Please note that these marks are given for information only and may not be officially recognised by the respective federations. For 400m and 400m hurdles, only automatic records are given, unless there is no alternative.

RECORDS FOR SUSPENDED NATIONS

Records are listed for Cambodia, Russia and South Africa even though the performances may have occurred while those countries were suspended by World Athletics.

ILLEGITIMATE MARKS

Some countries ratify records which World Athletics regard as illegal because of doping violation or wind-assistance. These have been relegated to footnotes with the best legitimate mark given in the main list. However, ratified records set by women in mixed races are shown in the main list with the best non-mixed mark footnoted. Similarly, officially recognised records set on aided marathon courses are shown first and foremost, with alternative bests footnoted in each case. A further complication has arisen with World Athletics enforcement of Competition Rule 2 (The Athletics Facility) or 11 (Validity of Performances), meaning it will not accept performances made at uncertified facilities, such as the track used for the 2018 African Games or street meetings staged in temporary facilities. Some countries continue to accept such marks as records, so on these pages both alternatives are listed.

QUESTIONABLE MARKS

While the AIU and World Athletics look into the issue of performance manipulation, some marks regarded as questionable by the compilers are footnoted rather than placed in the main list of records.

RECORDS SET INDOORS

The 1998 change to the then rule 260 enabled indoor marks to be recognised as outright world records. This development has been reflected in the lists, though it should be noted that most federations have not taken account of the rule change. This creates some situations which are hard to explain. Those who do reflect World Athletics rules and mix their records are AUS, DOM, ESP, EST, FRA, GRE, ISV, LTU, NZL, POL, PLW, PUR & SLO. For other federations, where relevant, separate listings are given of those indoor performances which are superior or identical to the ratified mark.

RECORDS IN COMBINED EVENTS

The 2010 World Athletics rule change means that a combined event performance is regarded as wind-assisted if the average assisting wind velocity for the three affected events exceeds two metres per second. Previously it was the case that the score would be legal if that condition applied and/or none of the three relevant following "winds" exceeded four metres per second. The narrowing of the criteria means that some existing records (e.g. Larisa Nikitina's Russian heptathlon record of 7007, with winds of 1.4, 1.1 & 4.0) would be judged as windy under today's rule. It has been determined that this rule change should not be applied in retrospect, so such marks are shown as legal in this section. Some marks made with the 'old model' of javelin (pre-1986 men and pre-1999 women) are still shown. The World Athletics policy at the time of those changes was not to reset records in combined events, even though new records were established for the individual discipline.

ABBREVIATIONS & CODES

a = automatically timed but hundredths not reported; i = indoor mark; * = Footnote included; dh = downhill marathon course; ‡ = a superior or identical mark has been achieved indoors, though not ratified as a record

PROGRESSION OF OFFICIAL WORLD RECORDS

This section lists progressive world record performances, as ratified by the World Athletics or the Fédération Sportive Féminine Internationale (FSFI), which was absorbed by the former in 1936. Though World Athletics (then the IAAF) was founded in 1912, its first list of world records contained marks which were set as early as 1870. Covered in this book are all the world records currently listed under World Athletics Competition Rule 32. The most recent additions (from November 1, 2021) being the 50km run, 35,000m/35km walks. The 20,000m, 25,000m & 30,000m runs were deleted from November 1, 2019.

AUTOMATIC TIMING

From 1975, World Athletics accepted separate, automatic electrically timed records for events up to and including 400m. From 1977 only automatic timing was considered for world records in these events. Automatic timing to hundredths was accepted for events up to and including 10,000m from 1981. Where known, unofficial automatic times are given – in a smaller typeface – next to the ratified “tenth” time. Ratified automatic times are always given in larger type.

INDOOR WORLD RECORDS

From 1998, World Athletics rules were amended to state that world records (as opposed to indoor world records) can be set at a facility “with or without” a roof. The rule was not applied retrospectively. A similar rule change occurred in the late 1980s, when the 2.42 high jump of Carlo Thränhardt (FRG), made indoors, was accepted as equalling the existing world (outdoor) record. However after that version of the ruling was rescinded, this mark was subsequently deleted as a world record and is not included in this section. Outright records are now accepted across all events.

ROAD RECORDS

From January 1, 2004 World Athletics recognised official world records at 10km, 15km, 20km, Half Marathon, 25km, 30km, Marathon, 100km, Road (Ekiden) Relay and also the 20km and 50km Walks. From November 1, 2017 the 15km, 20km, 25km and 30km were deleted and replaced with 5km and (in 2021) 50km. Progressions are also given here for best performances in the road running and walking events prior to their acceptance as official world record events.

OMISSIONS

Except for road events, excluded from this section are unrated marks, performances which were originally accepted as world records then annulled, and indoor-only world records. The data on “Progression of World Athletics Records”, edited on behalf of World Athletics Heritage by Richard Hymans.

Road events – world bests and world records

These were accepted by World Athletics as world bests from January 1, 2003 and world records from January 1, 2004. From November 1, 2017 a number of distances were dismissed and the 5km added with marks in that event, only considered from 2018. The 50km run and 35km walk were added to the world record roster from November 1, 2021 with the first records considered respectively from 2022 and 2023.

Shown here are the progressions of world bests prior to official acceptance. The records ratified by World Athletics are shown in bold.

Unratified marks are shown in light and are indented if set on aided courses not fulfilling the criteria specified in Competition Rule 31.21.2 (separation between start and finish points should not be more than 50% of race distance) or 31.21.3 (the decrease in elevation should not be greater than one in a thousand). + denotes marks set en route to longer distances.

**WORLD ATHLETICS
CHAMPIONSHIPS
OREGON 22**

BEST THREE BY YEAR 1970-2021

These listings show the top three performers in championship events, the Mile and the 3000m each year for the past 52 years. Up to 1977 for sprints, electrically and hand-timed marks have been mixed using the then accepted adjustments of 0.24 for 100/200m and 0.14 for 400m. So for example, Miller's 10.19 is ranked above 10.0 hand in 1971. Times for 120 yard, 440 yard and 880 yard races have been amended respectively by margins of 0.03, -0.26 and -0.6 in order to allow meaningful comparisons with their metric equivalents. Times which have been adjusted in this manner are asterisked. For the jumps and shot put, indoor marks are shown.

WORLD ALL-TIME LISTS

Included here are top 40 lists in all World Championship events and top 10s (where there is regular competition) in the remaining events having World record status according to World Athletics Competition Rule 32. Those competing with distinction under two or more names are denoted with the symbol "◇" and listed on page 11.

Where possible the country of origin of athletes representing the former Czechoslovakia, USSR or Yugoslavian states is given (Lists as at May 31, 2022)

Road events – world bests and world records

These were accepted by World Athletics as world bests from January 1, 2003 and world records from January 1, 2004. From November 1, 2011 World Athletics specified that “world records in road races for women [were] to be recognised in women only races”, though before that rule was enforced it was decided not to apply it in retrospect, so all existing world records (set in mixed races) remained standing. From November 1, 2013 it was agreed that World Athletics would separately ratify the best marks in single gender (i.e women only) road running races.

Therefore two progressions are shown here where relevant. A mixed race record will be ratified even if it is inferior to the equivalent women only mark. From November 1, 2017 a number of distances were dismissed and the 5km added with marks in that event, only considered from 2018. The 50km run and 35km walk were added to the world record roster from November 1, 2021 with the first records considered respectively from 2022 and 2023.

Shown here are the progressions of world bests prior to official acceptance. The records ratified by World Athletics are shown in bold. Unratified marks are shown in light and are indented if set on aided courses not fulfilling the criteria specified in Competition Rule 31.21.2 (separation between start and finish points should not be more than 50% of race distance) or 31.21.3 (the decrease in elevation should not be greater than one in a thousand). + denotes marks set en route to longer distances.
